PARIS PROPOSES RADICAL CHANGE IN LEAGUE FORM

Separate Groups of Nations to Deal With Various Sectional Problems

ONE SUPREME COUNCIL MIGHT ACT AS ARBITER

Universal Activities of League, It Is Said, Would Not Be Hampered, but Aided

By SISLEY HUDDLESTON PARIS, March 25 (Special Correpondence)—Most important proosals are put forward in Paris for
the reform of the League of Nations,

SENATORS FACE which has, as a result of the recent differences of opinion rt Geneva, been attacked, and has, above all, provoked in America a storm of criticism. France was seriously per-turbed and felt hurt at the suggestion that the crisis was deliberately caused. French sincerity was ques-tioned and it was asserted that the utility of the League had demonstra-

In my opinion France is indeed to be blamed for encouraging Polish pretensions to a permanent seat; for the moment that the permanent seats on the Council were not reserved to great powers, it was certain that other nations besides Poland would put in their claims, and that quarrels would ensue. Yet the blunder rels would ensue. Yet the blunder was honestly made, and the purpose

France is a wrecker, is a militarist country, is chiefly concerned with diplomatic advantages of the old kind. France could not understand the sudden onclaught of America, particularly when the breakdown of the Geneva negotiations was caused not by a European country but by the intransigence of an American country; namely Brazil. In my opinion there was no necessary connection between the Locarno Pact and the entry of Germany into the League; and the initial mistake was to treat the two questions as indissolubly united.

Blyision of League

Stitution and to give their leasons why the amendment should be sustained and enforced.

The importance of the hearing lies more in the clearing of the air than in any specific legislative act that may result from it. A national campaign is facing the country for the election of all imembers of the House of Representatives and 34 senators. The issue of prohibition will be forced in many states. While the hearing lies more in the clearing of the air than in any result from it. A national campaign is facing the country for the election of all imembers of the House of Representatives and 34 senators. The issue of prohibition will be forced in many states. While the hearing lies more in the clearing of the air than in any result from it. A national campaign is facing the country for the election of all imembers of the House of Representatives and 34 senators. The issue of prohibition will be forced in many states. While the hearing lies more in the clearing lies more i

However this may be, the most important proposal which is made in France, following the collapse of March, is the division of the League into a number of Continental organizations, with a Supreme Council acting as arbiter. At present it cannot be denied that the League has not be denied that the League has belonging to several Continents are included, it is Europe which rules is interesting. Its chairman, Rice W.

New Bill Alds Dry Plea

A bill drawn by Lincoln C. If the emigrés are successful, they pledge themselves not to interfere with the existing division of propeledge themselves not to interfere with the existing division of property. Also, there will be no encroachment on states which hold former Russian territory. It is difficult to estimate the strength of the movement, but if unity can truly be effected, many hundreds of thousands of Russians outside Russia will be included, it is Europe which rules is interesting. Its chairman, Rice W.

cil which would attend to American problems, and another Council which would attend to Pacific problems, and a third which would attend to European problems? Obviously an American nation cannot be expected to be interested in or to understand a European problem; and European the League of Nations. At any rate, on the question before the commit the suggestion is worthy of the most | tee.

AUSTRIA ABOLISHES CENSORING
VIENNA, April 5 (A)—Theatrical censorship in Austria, which has existed since 1850, is illegal and must be abolished, the Supreme Court of Justice has decided. In future a play may be ordered removed only after proof of violation of the penal code. Abolition of the censorship is expected to result in the production, in the near future, of Edmond Rostand's "L'Aiglon," which was banned a few weeks ago as being "hostile to the country." AUSTRIA ABOLISHES CENSORING

Urged to Lead New Russian Movement MAINE GOVERNOR FOR CONTINUING STATE POWER ACT

Executive Believes Policy of Forbidding Export Is a Wise One for Present

AUGUSTA, Me., April 5 (Special)-Believing a delay of at least two years will be wise, Gov. Ralph O. Brewster declares for present continuation of the policy of forbidding the export of electrical power beyond the borders of the State.

Stressing the point that "we are now in a period of economic and legal flux in the electrical world," he says, "it would seem to be the wise course to go slow and await

"Once the barn door of exportation is open, it may be extremely difficult again to lock it," continues the Governor. "In 16 years under our established policy of prohibiting the exportation of hydroelectric power, there has been an increase from \$2,-000,000 to \$20,000,000 in the assessed valuation of the public utilities distributing electricity.

Increase in Valuation

"Meanwhile there has been an ation of their property for rate making purposes upon which the citizens of Maine are paying a rate calculated to give an earning power of 8 per

Senator Bert M. Fernald.

"It has been urged that Maine's golden opportunity would be lost unless our policy was immediately changed and that our powers were ecoming a less and less important factor in our national economic life.

"The error of this conception would seem to be indicated by the years.

that of party unity for the sake, in and seizing all the arms, imposed that he might retain prestige as to atrocious acts of violence, going chairman of the Republican National as far as massacre; (2) the deporta-Committee.

Unity Advocated

Some of the speakers, who included John C. Hull, presiding officer of the House,; Martin Hays, Republican leader in the House, and several others, dealt specifically with the detail of the problem which has been presented on the floor of the lower ranch of the Legislature.
Reasons why members should sup-

port Governor Fuller in his policy Christian refugees were constrained of vetoing all bills which seem to by force and violence to leave their grant special privileges to individuals or groups. The record of the administration as bringing about notable state economy was praised by the speakers, and its continuance "At the present time the situation

bills, this time for employees in the Cambridge Public Library.

Party Realignment

One day previously he had vetoed a bill through which the city of Springfield asked permission to pay it its employees while they served in the National Guard. On several other occasions the advice of the administration organ, the Ways and Means Committee, was rejected.

All of these events convinced party in leaders in Boston and in Washington that quick steps must be taken to repair the incipient breach, for with the fall elections only a few months away legislative lack of harmony function in its usual manner.

Turning from the details of the issue as it applies in the State House of the issue as it applies in the State House private persons in England, is still private persons. It is practically impossible to find work for them, and they have nothing to hope for, at any rate for the present.

"Among all the incidents which have taken place in the zone of the Brussels line, it is beyond question that the deportations of Christians constitute the most important fact, day's caucus will be apparent. Observers at the State House were free to forecast that the strong Reportations and private persons in England, is still deplorable. They have lost all their possessions. It is practically impossible to find work for them, and they have nothing to hope for, at any rate for the present.

"Among all the incidents which have taken place in the considered. At these times the result of today's caucus will be apparent. Observers at the State House were free to forecast that the strong Reportations are still going on, for, as I have already mentioned, further

TURKISH TREATY PROTEST SIGNED BY 110 BISHOPS

American Episcopal Church Heads Oppose Ratification in Present Form

APPEAL BEING SENT MEMBERS OF SENATE

Acts of Angora Government Called Those of Unrepentant and Anti-Christian Nation

Special from Monitor Bureau NEW YORK, April 5-That Chrisian sentiment of America is opposed to the Lausanne Treaty in its present form is the belief of 110 Protestant Episcopal bishops throughout the United States, who have signed a protest against its ratification by the Senate. A copy of this protest, which has been issued in the form of a booklet, is being sent to every member of the United States Schate by Bishop of New York, It as made public through David Hunter Miller, chairman of the executive committee of the American Committee Opposed

In making the announcement, Mr. int. palities, including Boston, for school "A more noteworthy expression of Christian sentiment could hardly

opposed to the humiliating and found the text of the two official re-

Performance of Moral Duty

The protest of the bishops follows: "As Americans we should be as solicitous for the performance of our moral duty as for the protection of our material rights.

"We are asked to resume friendly relations with an avowedly unrewent to Webster, the town without a ment which destroyed 1,000,000 inchildren, expelled from their ancesholding in slavery in Turkish harems ten of thousands of Christian women

and children," it continues.
"We cannot forget that over 1,000,-000 Armenian refugees and exiles are now a people without a country, serted under Turkish domination; that thousands of Armenians fell in the field of battle in defense of our common cause and that President Wilson and President Harding made

Report to League Council Appended to the protest is an offi-cial report on the Kemalist atrocities

during the summer and autumn of "If the issue between the proponents of the Lausanne Treaty and its opponents were to be reduced to a single proposition," says the report,

"Proponents: Kemal is a civilized Turk and should be trusted.
"Opponents: The Turk is unchanged in his fundamental characteristics.

'General Laidoner's report should determine the issue." Then follows the report to the Council of the League of Nations by Gen. F. Laidoner, dated Mosul, Nov by tribal and village chiefs, the occu nation of certain villages by Turkish military posts and patrols, flight over the line by British aircraft and the deportations of Christians. Referring to the last mentioned, it asserts that (1) Turkish soldiers under the com-The text of all the speakers was mand of officers occupied the villages tions were deportations en masse, and, according to the statements made, the refugees were conducted to a district further removed from the provisional line. During the portations, it asserts, many of the refugees had to abandon everything

and were unable to carry with them either food or clo'hing. Condition Still Precarious

"Definite evidence that all the villages and their homes," it says, "is, however, to be found in the fact that they have arrived in Irak with-

and support in the Legislature was of these people, in spite of the sub-urged.

Turning from the details of the financial help of institutions and

g place every day." Following this is a me Following this is a memorandum on the inquiry conducted between Nov. 8 and 11, 1925, by M. Ed. Ortega-Nunes, M. H. Markus and M. E. Charrere, into the Christian deportations. This memorandum deals largely with the methods of deportation and cites many instances of atrocities committed by the Turks.

Driven From Homes "The evidence of these refugees as regards the conduct of the Turkish soldiers agrees to a remarkable extent" it says.

"All idea of a voluntary emigra-tion on their part must be excluded. The mere fact that they arrived in Irak and are still arriving daily in the utmost physical distress and completely without resources proves beyond dispute that they were com-pelled to abandon their villages by orce and violence. Moreover, if they had remained in their homes, they quite easily have provided for their material wants even though they were obliged to give half of all they had to their 'Agha.' They would, therefore, never have aban-doned their homes of their own accord. Besides that, they are strongly attached to their homes, and the loss of their family life fills them with despair. They are simple people, entirely uneducated. The village priest is the only person who can read and general education is extremely limnlete ignorance of these people that when we questioned them on this point they invariably replied: 'We don't know, for it has never been

They showed no hesitation in replying to our questions and we found any contradiction at all between the statements made by persons of the same village. In face of their obvious simplicity, there can ment between them as to the statements they would make."

During the deportations from the village of Alto, the deportees, they declared, heard the Turks say that they were being driven from "because they were Christians." "We have already done it in the other parts of Turkey," they said, "and now it is your turn."

the reception, an honor not bestowed upon anybody in the memory of this generation, with the exception of royalty. The battleship Jaime II has ARE AT VARIANC been placed at the disposal of the press and the diplomatic representatives, since hotel accom for the many thousands who will be present at the port of Huelva is out of the question, the town already be-

ing overcrowded.

The arrival will coincide with the departure of three airplanes, also in the Spanish air service, who are making for Manila and Tokyo. Much interest is shown in this new flight, which will be watched with as great enthusiasm as Commander Franco's, as the machines and motors were built in Spain.

RIOTING IN INDIA IS UNDER CONTROL

Known for Years

By Special Cable

BOMBAY, April 5-Except for sporadic cases of "hooliganism," the police now have the situation arising from the recent religious riots in Calcutta under control. Nevertheless, the possibility of further outbreaks still exists, and both Hindu and Moslem leaders are appealing to the scale of the people to be calm. The riot was one of the most serious which has occurred in India in modern times, and is regarded as providing an impressive object lesson to the new Viceroy, Lord Irwin, on the difficulties of Indian administration.

The trouble sprang from the passage of a Hindu procession, headed by musicians playing pipes, before a Muhammadan mosque. Music is for-bidden in the exercise of the Moslem religion, and the procession was, therefore, regarded as an insult. The shops were looted of petrol, godowns and private dwellings were set on a Hindu temple was desecrated and for a time mob-rule reigned. The military had to fire on the infuriated crowd to disperse it. Machine-guns were placed at strategic points and armed police patrolled the affected areas in motor lorries.

INTERNATIONALE WORKS

Bu Special Cable

MOSCOW, April 5-The executive committee of the Communist Internationale has decreed an important revision of the constitution of this organization for the purpose of increasing the efficiency and strengthening the influence of non-Russian parties in framing the decisions of the Internationale. According to the revised constitution, the Communist parties included in the Internationale will henceforth function as a regioual group of units under the direction of the Internationale, but with an extensive representation of the parties concerned.

So all the Baltic countries constitute one group, while America, combined with Japan and Canada, forms another. It is contended that this itself from the tendency to follow the system will cause the parties from example of other parties, and engage countries which have similar geo- in dialectical duels for the purpose of graphical and economic conditions to making individual reputations, and co-operate more effectively and to from compromises to gain tempor understand each other's problems.

HAGUE MEETING IS ADVOCATED

Resolution in Congress Asks will President to Propose Third Conference

WASHINGTON, April 5 (Special) George Holden Tinkham (R.) epresentative from Massachusetts, y introduced a joint resolution the House of Representatives, res ose the calling of a third Hague onference for the codification and estatement of international law. The resolution was referred to the Committee on Foreign Affairs.

Mr. Tinkham, discussing the resolution, stated that he felt that con-

of a stable world order. He pointed out that it is essen-tially an American philosophy that my desirable or permanent peace or security among nations must rest on the foundations of justice by icial determination and that since stice between nations is definable aly in terms of international law, he happiness of peoples requires the stablishment and extension of the inance of international law.

Development of International Law

and compulsion," said Mr. Tinkham, "the calling of a Third Hague Conference for the codification of international law would be a noble contribution to world order by the contribution of state order to the contribution of the contributio

rules and statutes of international right and justice."

The Resolution

The resolution follows: "Resolved: LLOYD GEORGE SEEN By the Senate and House of Repre-sentatives of the United States of America in Congress assembled, That the President be, and he is hereby, espectfully requested to propose on ehalf of the Government of the nited States to the nations of the corld, the calling of a Third Hague onference, or to accept an invitation participate on behalf of the United roposal of some other Government hich had itself taken part in the econd. Hague Conference, and to ecommend to such conference the

ormulate and agree upon the mendments and additions, if any, o the rules of international law hown to be necessary or useful; (3) wiews and to secure general agree-ment upon the rules which have been in dispute heretofore; and (4) to consider the subjects not now ade-quately regulated by international law, but to which the interest of in-ternational justice requires that rules of law shall be declared and accepted."

PRESS UNRESPONSIVE OVER FRENCH TAX BILL

PARIS, April 5—The French tax bill having gone to and fro be-tween the Senate to the Chamber of Deputies throughout Easter has been nally passed, and the bill increasing ms duties 30 per cent has been passed. It is curious that ead of rejoicing, the general attiide of the newspapers is to warp ne public that very little has been one toward the restoration of rench finances.

Why We Built the CENTRAL

THE S. S. Pierce CENTRAL was built to sult from centralizing under one roof all executive, clerical, and service departments of a growing business. Careful study, guided by years of experience, convinced us that if we could centralize in one building located in the center of our delivery area, all our departments, including our large corps of telephone sales people, many advantages would be created that could be passed along to our customers. For these rea-

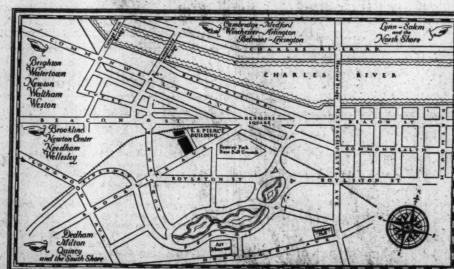

sons the new S. S. Pierce CENTRAL was

The building was designed to provide exceptional warehouse facilities, and to assist with the assembling and delivering of orders by means of conveyors and other machinery especially constructed for the purpose. Perfumery, Confectionery and Grocery Specialties have been placed in special rooms, chests and humidifiers, equipped with temperature controlling apparatus designed to keep the merchandise in the best possible condition.

OUR STORE FOR MOTORISTS

IN OUR choice of a site for the new CENTRAL, a controlling factor was our desire to establish on the street floor a STORE FOR MOTORISTS. After careful consideration the CENTRAL was built on Brookline Avenue, midway between Kenmore Square and Audubon Road. We have now made available a STORE FOR MOTORISTS, easily accessible from all main traffic arteries, free from downtown traffic congestion and provided with ample parking facilities.

One of the features of this store will be the opportunity afforded customers to take greater advantage of our "Will Call" system, whereby they may telephone their orders to the CENTRAL, calling for them as

You are cordially invited to attend the public opening of our STORE FOR MOTORISTS and to inspect the new CENIRAL

"The world doesn't stand still, and I'll be waiting for it at the forefront of progress in the stoutly was the rejoinder of Mr. Gulesian." railroad are restaurants, market and Coombs' chemist store and

Romantic, yet real, is this march of Massachusetts Avenue to standing as uptown Boston's great cross-town highway so indispensable in the evolution of that widespread section of the city but recently reclaimed and where, within the vivid memories of men, were the two great reservoirs from which operated the mills of the Boston Water Power Company. The filling in of the Back Bay began in 1855 and it was not completed until 1886, so today men in active pursuit of business in Massachusetts Avenue still talk of the time, so recently, when the great time, so recently, when the great salt marsh on which a large part of the city now stands was seamed with tortuous and muddy estuaries into which the waters of the Atlantic slowly found their restless way only to trickle sluggishly seaward again twice in 24 hours.

Let these active husiness men who have seen the swift changes in this district, where Massachusetts Avenue recently formed the wall sepa-rating the Fens to the westward from the Back Bay bogs to the east, tell the amazing story.

Used to Fish at Symphony Hall Let these men recall the races on the ice from Roxbury to Massachu-setts Avenue by the boys of that recent day and of how the little

bright 5- and 10-cent stores, automobile marts, attractive markets and winning haberdasheries have wonderfully "brightened up the corners" the saloons once occupied. Prosperity Succeeded the Saloon

"Wherever a saloon was blotted out real estate advanced rapidly in value," summed up Mr. Gulesian in his review of the progress of Massachusetts Avenue from the time he first knew it until today. "It advanced so rapidlyy and substantially that the city has all but doubled its valuations of real estate in this district for the purposes of taxation."

The "uptown isolation" which Mr. Gulesian's friends had predicted for his theater it did not long enjoy, for four or five years after the St. James started in business the Fen-Avenue was opened and then, not so long afterward, the Loew's State Theater was built.

day. His shop was not far from where Hemenway and Boylston

Was a Sleepy Old Street

"When I came here few would have dreamed that West Chester Park would one day not so very far in the future become the wide, whirling Massachusetts Avenue it is today. It was a sleepy old street then, what there was of it, and the three or four business houses or shops ere had to look to it to make good. There were no Symphony nor Horti-cultural Halls in those days to speed up the section.

"There was very little on either side of the street between here and Boylston to be remembered, aside from the good old-fashioned country residences which have been torn down or remodeled since then. At Boylston Street there was a clump of little buildings containing shops and markets and then down toward the Charles on the other side were the residences of former Gov. Oliver Ames, still there at Commonwealth, and across the boulevards the Chesterfield Apartments."

Mr. McMahon said the Boston Cab Company had its stables where the Boston Transit Building stands today at the Boston & Albany crossing, while the Kenny & Clark stables did a large business at Massachusetts Avenue and Newbury Street. The latter street, he said, from Hereford Street to Massachusetts Avenue, was given over largely to stables for private carriages and riding horses of the well-to-do residents in the neighborhood.

How Property Value Increased "It is easy to remember when real estate prices along the avenue, or West Chester Park as it then was ranged from 50 cents to \$1 the foot." said Mr. McMahon, "In less than 15 years prices had jumped until the figure ranged from \$10 to \$15 the foot and today the papers will not move unless something nearer twice these figures were quoted. Such a place as I have would have brought \$30 .-000 then, but \$75,000 would not reach It today.

How building has extended horizontally in 30 years until every available foot of land on Massachusetts Avenue has been filled in and occupied was recalled by J. Frank Jaques of the hardware firm, then he added: "I wonder what will be the perpendicular development in the avenue in the next 30 years."

Mr. Jaques said the French part of his name must undoubtedly have come from Paris—Paris, Me., for that's his native place. His great-greatgrandfather, Moses Richardson, took part in the Battle of Lexington and (Continued on Page 7B, Column 6)

Cultural Centers Draw Throngs Where Cows Once Grazed on Marsh Grass

SYMPHONY HALL A LODESTONE TO NOTABLE ART COMMUNITY

Dating from October 15, 1900, It Was Followed by Many Other Institutions That Have Won Fame in Cultural History of Boston

ned to the public amid impresnstances and in the pres-

ence of many music masters and men high in other pursuits of life, on Oct. 15, 1900, this stately building has been the forerunner of a memorable aggregation of shrines devoted to the advancement of the arts.

As a twin pillar to the inner gate-way to Massachusetts Avenue, just across the thoroughfare stands Hor-ticultural Hall, which but a year later followed former on a command-ing site in the then but partially

uilt up Back Bay. Then came the New England Conservatory of Music. A few years and the classic Boston Museum of Fine Arts found this area of Boston most congenial and its noble buildings ce the Fenway district devoted o the arts. Soon came the Boston Opera House and the drama found lodgment here. Latest and not less teworthy is the Repertory Theater dged to city, state and donor to ster the best in the histrionic art.

Center of Cultural Group Of what a notable grouping of culture has Symphony Hall proved

Built by the New Boston Music Hall Corporation, it was at once leased to the Boston Symphony Or-chestra, of which Henry L. Higginson was, since 1881, the real sponsor. On that famuos night in October, 1900, Major Higginson stood in the center of that great stage and recounted the triumphs of the orchestral organization which has continued from conquer-

That night, when Governor, Counsel, and other dignitaries of State and city and Boston's great educaand city and Boston's great educa-tional institutions were present to applaud and to admire, the orches-tra, conducted by Wilhelm Gericke for 13 seasons, played Beethoven's most famous of masses, the Missa Solemnis, preceded by Owen Wis-ter's "Bird of Passage" and an Ode to Instrumental Music.

Commenting on the dedication of Symphony Hall, W. B. Mathews, editor of "Music" said in 1900: "The location of the new hall is far away from the old one (in Winter Street)

away out at Massachusetts and Huntington Avenues, a mile or more from the lower end of The Common. This is something Boston has got to get used to. Personally I do not see that anything has been gained in the new hall which might not have which is more central now than every since the subways bring everything so close. The old hall is just as quiet; I think just as large, and by putting modern seats and perhaps raising the floor a little, just as con-venient in every way."

Succeeded Boston Music Hall Symphony Hall's forerunner was the Boston Music Hall built in 1852 in Winter Street under direction of eorge Suell, the architect. Externally there was no attempt to adorn this first temple dedicated to music and what architectural pretensions great for its time and purpose, was dedicated, and Charlotte Cushman m written for the event by an-

first complete concert organ in the country. A notable group of organists—B. J. Lang, John K. Paine, Eugene Thayer, S. P. Tuckerman, John H. 'ilcox and George W. Morgan were the first to play upon

George Henschel First Conductor The Boston Symphony Orchestra as such came upon the concert stage in 1881 when Major Higginson per-sonally underwrote the presumable expense of the undertaking which, expense of the undertaking which, however, was remarkably successful both artistically and financially. Twenty public concerts were given by the orchestra in 1881 in the Boston Music Hall.

George Henschel was the first conductor, and 60 pieces responded to Street hall that the collecting of

STORAGE HOUSE MUTE WITNESSTO MANY CHANGES

Buttressed and Towered Building Watched West Chester Park Transform

For more than 45 years have the castellated walls the fortress-like buttresses and the towering rampants of the Boston Storage Warehouse Company stood stern citadel of the fortunes of Massachusetts and Westland Avenues. Twelve years before old West Chester Park gave way to Massachusetts Avenue, was constructed this massive structure so like an ancient fortification.

When first rose the mammoth building along Massachusetts Avenue, constructed before modern effi-ciency had bethought the utilization of the few square feet of now precious land caused by the offset by that thin veneer of shops which holds the eye for the unusual, the tides backed up the waters of the Atlantic to Massachusetts Avenue and the dancing wavelets threw their flickering glints along the broad and silent walls

And long after the buttressed addition toward the west had been built for the growing demands of the storage plant, Westland Avenue might well have been termed "Wasteland Way," for no buildings but the ware-house and the Westland Apartment hinted the residential street so soon to come.

Local lore has it that the central structure on the corner of the avenue and street was built originally as an apartment house but that it had anticipated such a demand by so many years that it was sold and converted into the first building of the Boston Storage Warehouse Company. In those days Dr. Temple's residence stood where now the Chimes Spa occupies the first floor of a modern structure while across the avenue neighbors to the Temple family had their domicile. Where now are Symphony and Horticultural Halls, the contractors dumped earth and ashes to fill the sunken marshes.

"One actually forgets those days, so different are they from what we new have," said Edward L. Wingate, the manager of the storage warehouses. "Of course those pictures recall it all, and it hasn't been half so long ago as it seems. today is so engrossing that soon the recollection of what was so recently

is washed from the thought. "There is no doubt that the Bos-Ellis, Edward E. Ginsburg, Henry ton Storage Warehouse Company Halper, John J. Kelly, Edward D. plant has no rival in this part of the town as a genuine landmark. uels. Products to Be Studied "After several weeks of study, the esearch committee of the council lecided to approach the problem by the committee believes, will not only bring out the actual facts of conditions in the New England market, but will also throw much light on e production and marketing methods of New England industries in comparison with those of competing industries elsewhere.

reasons for the lessened demand for the New England articles. The com-

nation gathered in this way.
"The committee realizes that for nany of our industries the New England field is but a small part of their total market. It is believed, however, that by using the New England area as a sort of laboratory in which to develop the facts sought, the infermation thus obtained will indicate the marketing problems our manufacturers face in other sections.

First Approach of Its Kind

"Never before has New England's industrial problem been approached in this way. If the method proposed is successful with respect to the few products to be studied, the commitmaking an inquiry into the proportionate sales of New England goods in the New England market, in comtries will make similar researches parison with sales of similar goods on their own account. It is only as made elsewhere. Such an inquiry, each industry in New England proseach industry in New England pros-pers that New England as a whole can prosper and hold her important place as an industrial area, and none but the industries themselves can work out their individual prob-

Heightening of Sky Line to Be Next Step in Section's Business Expansion

CENTRAL DEPOT FOR S. S. PIERCE

Grocery Firm's New Building Will House Special Store for Motorists

Just as the first S. S. Pierce store Streets, Boston, was in the center of its delivery area, so now its lineal descendant, the "S. S. Pierce Company Ceneral," on Brookline

Streets, which has been refashioned into an office building, complete in all essential respects.

Without and within the change made has been most the on the corner of Tremont and Court Avenue between Governor Square and Audubon Road, with its own rail spur, and housing the new store for motorists which will be opened Thursday, is so located as to be in most direct contact with all its de-

livery areas.
Out Brookline Avenue lie the roads to Dedham, Milton, Quincy and the South Shore. Out Beacon Street are Brookline, Newton Center, Needham and Wellesley. Out Commonwealth Avenue Brighton, Watertown, Newton, Waltham and Weston. Across the Charles, by roads quickly accessible to the three bridges near to the central, lie Medford, Winchester, Arlington, Belmont, Lynn, Salem

and the North Shore.
In 1831, Samuel S. Pierce found the wheelbarrow which he borrowed from the Brattle Street Church sufficient for the demands of his delivery service. Then there were no telephones, and groceries, save bar-rels of flour and molasses, were rdinarily carried home by the

The Hand-Cart Era first horse and wagon grocery de-livery in Boston—and the still thriv-ing motor period, the delivery de-mands have steadily grown, until with the incessant roar of careening

lorries and flying roadsters it became almost impossible to maintain an ex-tensive delivery system from any of

Time was, of course, when there was, comparatively speaking, plenty of time and plenty of room to back a team of bays in to the curb on Beacon Street; when Copley Square was "out in the suburbs," no insoluble problems confronted the S. S. Pierce master of horse. But it stands to reason that no metropolitan firm can allow itself to be pushed gently but firmly farther down the road to Worcester.

The opening of the "central" is big and far-seeing move. Its six acres of floor space provide ample room for the offices as well as for storage of stock. The centralization of clerical and executive forces at the "central" has not only increased the fficiency of that unit, but it has relieved congestion at the various

Access to Suburbs

in addition, as already indicated, It gives easy access to all the promi-nent suburban thoroughfares, but

REGENERATION NOT USED IN **KB-8 RECEIVER**

Sleeper Adaptation of B-D Uses Sensitive New Donle Tube

Of particular interest in the accompanying article by M. B. Sleeper is the announcement of the Donle detector tube, for which great things are claimed. We are awaiting some of these tubes for test in our laboratories, and will probably have much more to say about this detector in the near future. We are particularly glad to note that Mr. Sleeper is now neutralizing the first tube in the B-D set, a point of engineering-opinion difference between ourselves and Mr. Sleeper for some time. While the 199 type of tube need not al-ways be neutralized, we felt that the average homebuilding work some positive means of con trolling oscillation in the first circuit should be available. Mr. Sleeper now checks with us on this point.

When a B. C. L. asks a dealer or set builder to construct a receiving set for him, he generally has uppermost in his mind one specificationthe set must be satisfactory in opmenter on the other hand, buying parts to make an outfit, generally wants something unusual in the way of operation or design. The non-re-generative Browning-Drake receiver, type KB-8, was designed to meet the requirements of both the B. C. L. and the experimenter. For the former, the KB-8 has been

made irreproachable in operation; that is, there are two adjustments tuning and that is all, once the rheostats and neutralizing conwhich will cause the set to howl by throwing it into oscillation. Therefore, the set is not open to criticism for its bad manners, either by the operator or his next-door neighbor, who resents so strongly the presence of sets which are tuned by putting the set into oscillation in order to

pick up squeals.

The system of audio frequency stable condition which is encountered just under the point of oscilteries will give such long life that no one can complain of expense or dissatisfaction from that source. The construction is rugged and perma nent, precluding the development of loose parts and broken connections.

New Detector Tube The experimenters will quickly recognize a number of innovations.
Of special importance is the introduction of the new Donle detector tube. Harold P. Donle, formerly chief engineer of the Connecticut Telephone and Electric Company and inventor of the Sodion detector, the most sensitive type which has ever been made, is now producing the Donle detector tube. This tube operates on a basic idea recently discovered by Mr. Donle, and in a recent series of tests demonstrated a degree of sensitiveness which has not been approached previously by any other tube. The electrical characteristics are somewhat similar to the D-21 Sodion. It does not require a potentiometer, it can be operated vithout a gridleak or grid condenser, and the plate impedance is very high. With 22 volts, the plate current is only 0.1 milliampere filament takes 0.25 ampere at five

The sensitiveness of the detector is not only important in DX recep-tion, but it has a marked effect upon the quality. When a fairly high minimum voltage must be applied to tion, it is obvious that a part of the received speech must be lost. Increasing the sensitiveness of the detector reduces the amount of modulation which does not go into the A. F. amplifier.

The R. F. Amplifier Unit

In the circuit of the R. F. amplifier the circuit of the R. F. amplifier.

Weather reports. 10:03—WBZ Radio Movie Club under the direction of George Fecke.

WGY. Schenestady the grid in order to make it func-tion, it is obvious that a part of the

looking at the set from the front, R. F. tube panel, and neutralizing condenser. The coil is identical in dimensions to that which has been furnished in the standard Browning-Drake units built by the National Company, but the 0.0005 mfd. variable condenser is of S. L. F. design, turning through 270 degrees. A Velvet vernier is employed, with a dial having 150 graduations. This gives an effective reduction ratio of 7 to 1.

Detector Tuning Circuit No change has been made in the inductance for the detector circuit. The standard regenaformer coil is employed, but the tickler is omitted, and a 0.00025 S. L. F. condenser sub-

types previously used.

It has been observed by some entance, volume, and quality, certainly gives a very definite increase in dis-

the design of the coils and the method of winding and placing the primary.

In other words, regeneration increases the signal strength over the strength over the below are the equivalent. For this reason, it is well to watch the storage battery so that it will not drop appreciably below 6 volts. Other types of amplifier tubes can be used provided they are the equivalent.

Int of the Daven tubes in their electrical characteristics.

Notes on the Installation

Thirty or 40 miles from New York City, the KB8 gives as sharp tuning as anyone can ask of a set, even when it is operated on a 100-foot single wire antenna. This is a convenient size, not too big, but large enough for good pick-up, With a 75 or 100-foot antenna the range is equal to any of the very best residence.

CAMP BUDGET SYSTEM URGED

Professor McNair Outlines Plan at Conference of Scout Leaders

SPRINGFIELD, Mass., April (Special)-Suggestions for a simple and practical system of cost account ing for summer camps were laid before the New England Camp Conference of the Boy Scouts of America this afternoon by Prof. M. P. McNair of the Harvard School of Business Administration.

In his report of a survey of New England camps, Professor McNair set forth the need of such a plan,

of business records.

He said that among the New England camps last season the weekly cost per boy ranged all the way from \$4.95 to \$25.67, due largely to differences of accounting methods. For example the \$25.67 mark was reached by including as operating expenses items that should have

een charged to capital.

Robert S. Hale of Boston, chairman of the New England Camp Committee at whose request Professor McNair made his investigation opened the Juncheon session in Highland Hotel with an address strongly recommending budgeting system. He pointed out that every camp was free to order its own ac-tivities and there was no thought of a compulsory system, yet great advantages would result from more

Mr. Hale also invoked careful conobjectives are very bad indeed. You principal conductor of the Grand may, perhaps, put your objective a Council of Ohio, will inspect the little higher than you are really council work.

going to attain, but don't put it much

rector, spoke at the luncheon on "New Diamonds From the Field." Arnold Sorenzon, assistant executive of the Hampden County Council, spoke at the afternoon session on "Management of the Camp Commis-"

Dishmop the Tramp and Lord Wellesley the Aristocrat

About 90 camp directors, Scout executives and lay chairmen are in attendance.

MARCH IMPORTS JUMP \$7,548,962

Top February's \$30,429,194 in Massachusetts District

Value of merchandise imported during March via the Massachusetts Customs District, chiefly the port of Boston, was \$7,548,962 greater than in February, and \$3,250,000 more than in March, 1925, according to and told how it might be possible to figures made public today by Willhave a real basis of comparison between camps, work out a budget system and maintain a simple form months of the current fiscal year, ending with March, imports were valued at nearly \$22,000,000 more than for the corresponding period a year ago.

March imports were valued at \$37,-978,156, compared with \$30,429,194 in February and \$34,621,018 in March, 1925. Duties collected in March were \$5,159,389.81, as compared with \$5,932,697.33 in February and \$4,193,818.02 in March, last year For the nine months ending with March, imports were valued at \$250,-598,567, as compared with \$228,743,-Duties collected for these periods were \$43,202,494 and \$34,122,809, respectively.

Famous Fiske Library on Way to Its New Home at Los Angeles

Historian's Collection, Rich in Varied Lines, Has Been Acquired by University of California, Southern Branch-Will Be Kept Intact

Brattle Street, Cambridge, Mass., to the permanent nossession of the in natural sciences. University of California, southern branch, at Los Angeles, Calif.

ing of a group of southern Califorof the books themselves as the inspimians exceedingly anxious to see it placed close at the hand of the South Huntington had already gathered a shelves. Plato, Aristotle, Spinoza, most valuable group of original John Fiske maps and manuscripts.

Thus, likewise, the lifelong desire of the historian, that his library should never be broken up seems the lifeton and a similar continuous and Las Casas. There are also the writings of Lewes, many, many volumes of Bacon and Mill, Pollock, Cudworth, Martineau and Calton In 1872 Fisks's own "Myths"

Prevents Library's Separation

Charles K. Bolton of the Boston Athenæum said that those most in-terested in the library from the terested in the library from the standpoint of collector and bibliophile could not wish for a more happy placement of the collection terest in the classics, music and genhappy placement of the collection terest in the classics, music and gen-which so graphically expresses the eral literature. He had fine old ediintellectual and acquisitve taste of the historian. It marks the literary atmosphere in which Fiske did all his important work, and to have allowed it to become disintegrated, in velum, published in Strasburg in the ordinary course of the breaking up. lowed it to become disintegrated, in the ordinary course of the breaking up of an estate would have been a liter-clalized as well as the fundamental

which it grew and became important. him enchanted. His culture was uni-The transfer to this new ownership versal, of west as well as of east. He was not made in any response to a mere demand for books upon a land, but the wide world was the special subject. The scope of the library is of extraordinary dimensions and the library as a unit is a true reflection of the historian's cos-

true reflection of the historian's cosmopolitan scholarship.

It has in it a surprisingly moderate number of the so-called "gift" volumes often common to great libraries. It is essentially a working library of the highest order. The books are a measure of the intellectual aspirations and attainments of their original owner, and eloquently mark horizons of the best in learning, the wisest in reflection and thought and the greatest in the literatures of all time.

In Familiar Setting

Nor do the books go to a country with which Professor Fiske was unfamiliar. In his busy life the historian crossed and recrossed the country many times. He lectured in many places, in his inimitable style, on philosophy, religion and history. Andiences in the West were familiar with the picture made by his impressive figure and with hearing his marvelously expounded ideas. The placing, in the West, of his library, 521 13th St., N. W., Washington, D. C.

Nine thousand volumes, comprising the almost priceless library of

Campus Dogs Bark Gleefully as Mt. Holyoke Vacation Ends Secretary of Commerce, is expected to be the principal speaker at the annual convention of the Natural Gas Association of America in Tulsa May 17 to 20. Leaders of the natural gas industry from all parts of the United States and from Canada will be in attendance. A W.

Among the Group That Gathers Every Morning at Recess for Lemon Tarts and Other Delicacies

SOUTH HADLEY, Mass., April 6
(Special) — The opening of Mount
Holyoke College this morning after
spring vacation brought delight to a
numerous but humble part of the
tampus population to whom vacations are even more significant than
to the students, for it ended the long
and melancholy fast of the campus
dogs who are accustomed to gather
every morning to beg bites of "Junior

signal for the rival class to catch
him if they could and put their own
colors on him. It was Dishmop who
first discovered Junior lunch, and
bearned to sit up an beg for a
brownie, peering piteously through
his mop of hair. From him apparently the other dogs have learned the
trick, for there is hardly one who
cannot sit on his haunches and ask
for food with a sharp, insistent bark. every morning to beg bites of "Junior for food with a sharp, insistent bark. lunch" from soft-hearted girls.

Wiles of the Dogs

Junior lunch is a mid-morning refection of brownies and lettuce sandwiches, and doughnuts, and unable to resist the wiles of the lemon tarts served up by the Junior dogs, and there is never a time when

But life is not all clear sailing for

these pampered creatures. The day comes when the college closes—

sometimes only for a few days, sometimes for that long, dreary summer interim when even Dishmop forgets the smell of a brownie. Fri-

day morning when Mount Holyoke

closed for spring vacation, visitors in the silent and darkened post office

corridor saw a strange sight—a row of dogs, silent, dejected, staring with

hungry eyes at the empty lunch counter—Dishmop and Lord Welles-

canine heart had again that su-preme hour of food, festivity, and

public notice to look forward to each

TAPAN has a literary history of teacher of it," says a native proverb over twelve hundred years. Its No, the good ita-bite is born, not most ancient liturgies, legends, made. No Chinese word is allowed and poems go still further back into in its vocabulary. Indeed, one may the mists of unwritten antiquity. Its put in a whole bolster, or row of "Kojiki," or Bibie, was written in "pillow-words," meaning nothing but 712 A.D. The Japanese have had sounding well, in order to pad out block-printing for over a millennium. the full form; but all the vocables Their use of movable types was must be native. But alas for the known over a century before Coster pitiful limits of the stanza! It is in or Gutenberg. Their employment of lines of 5-6-5-7-7 syllables, thirtywoodcuts and book illustrations is one in all, and rarely is the naga-uta nearly synchronous with that of Eu- or long poem, over a page long. The rope. Thus their day in the twentieth voluminous collections of Japanese

rope. Thus their day in the twentieth century is a day not of trickling fountain-drops, nor of meadow rivulet, but of a great flood of literature in every form.

A bird's-eye view of Japanese literary history shows that learning was at first the monopoly of the Court and the priests. In the Middle Ages it spread out along restricted lines. As in Europe, so in Nippon, the clerk was skillful with the pen, while the knight was content with his sword. After the great peace brought by Iyeyasu, early in the seventeenth Iyeyasu, early in the seventeenth After possibly sixteen centuries of century, the gentry were, as a rule, these tiny lyrical poems, two Japa-

ell educated.

Pedantry and mere letter-learning

nese students, after study in the
United States, began to translate the Japan. Like a great tree shading tongue. Campbell, Gray, Tennyson, balefully the native originality and energy has been this dominance of Japanese. They took a step bolder, Chinese ideals and ideas. The women and a few years ago sent forth a were the first to break away and volume of "New Style in Poems." In write romances, poems, sentimental their prefaces they called their work and descriptive literature in unstilted neither uta nor shi (Chinese stanzas), style, which is still the standard of pure Japanese. Strange to say, when a man wanted to write what was written Japanese, and the structure adable, enjoyable, and, as it proved, after seven hundred years, still sional naga-uta, or long poems. Vol-charming, he imitated this "woman's style." In other words, he threw published, and are still popular. And style." In other words, he threw away his Chinese stilts and wrote his own more heautiful native language.

Many of those medieval poems, or those medieval poems, or the fairy-lands of Occidental

comedies, romances, have been put into English. One of the most famous and oldest romances written seek broader channels of expression.

Was "The Bamboo-Cutter's Daugh- Bakin, a writer of the eighteenth was "The Bamboo-Cutter's Daughter." Beautifully written—a description of the eleventh century. 4 4 4

The salt which preserves literature is style. The "Tosa Niki," written in the year 935 by an officer of castles out of which brave retinues the Mikado, is barren of plot but ex-uberant in literary graces. Very old, yes—but still this dainty Tosa Diary unalarmed. Bakin left over two hun-dred and ninety works. He is the Sir is a favorite. It has been done in Walter Scott of old Japan in his English. The "woman's (that is, Japanese, not Chinese) style" saved it.

Now if we take a leap from the

tenth century to the present and spirit of his writings is didactic. He pass over the tons of books the Japanese have written, we will scan four and, from the point of view of New influential writers of the nineteenth Japan, is pedantic and parrow century. Fukusawa, who was the "intellectual father of half the young men" a few years ago, having been Ikku pictured life more in the mana schoolmaster and editor, as well ner of Dickens, and was not afraid as an author; next Kido, the founder to transfer the people's language to of the Japanese periodical press, and the "pen of the Revolution" of 1868; Shimada Samuro, editor; Taguchi Uchida, former editor of the Economist, a keen literary critic.

ern literature have kept pace with Perennially free from the fetters original production, thus opening of Chinese formalism, Japanese the new world of Western fiction to etry interests a foreigner more the minds of the Japanese. It may than Japanese prose. "There is no now be said that a certain school of

Born Again

An altered look about the hills; A Tyrian light the village fills: A wider sunrise in the dawn: A deeper twilight on the lawn; A print of a vermilion foot: A purple finger on the slope; A flinnant fly upon the nane. A spider at his trade again: An added strut in chanticleer; A flower expected everywhere; An axe shrill singing in the woods; Fern-odors on untravelled roads,-All this, and more I cannot tell. A furtive look you know as well, And Nicodemus' mystery Receives its annual reply.

-Emily Dickinson.

Dreamland

BEAUTY in a landscape is very much a matter of design and balance, and Nature, if given the proper materials, usually achieves a masterpiece. Water and rock, trees and trailing vines, the graceful curve of hills and the pleasant irregularities of forest land, these are the palette with which she is most successful. The artist, traveling in the generous countryside, is constantly thinking: "I must get this to move lazily along, a bluish haze or that view down on canvas. I must make it somehow permanent." It is

make it somehow permanent." It is from our dark fragrant grotto on to such men that we owe much of our enjoyment of nature, for they catch still in such a place. We can almost her in her best moods, and immor-hear the gentle talk of the little wood-folk around us, but no other The landscape of Carl Krafft's sound breaks in upon our peace.

Vale of the waterfalls! Glen of the streams! Wake from your slumbering! Wake from your dreams!

Wild sings the mountain-lark, Bird of the air! Calling the valley-birds Up to him there! . . .

Fresh breathes the morning-wind Bright looks the day, Up to the heather hills.

Lilian, away! -George Darley.

Flowers From a Friend in Sussex

Written for The Christian Science Monitor

From Sussex, oh, from Sussex, with dew and sunlight blent, From an old walled-in garden a kindly hand has sent These daffodils and violets the March wind blew about, So that their gold and purple alone have ventured out

In the fair Sussex garden I know a place is set For pansies and for tulips, and fragrant mignonette. For roses' crimson riot, and, wave on wave, a mass, Anemones, all colored, in the long orchard grass.

There shakes a pine, black-shadowed, into the windy sky And, like a happy shepherd, the blackbird whistles high, And, nut-sweet in the sunshine, the gorse on rolling downs,

Is like a golden girdle about the Sussex towns. All Sussex, lovely Sussex, awakes from winter sleep.

In farmyards all is movement; the lanes are full of sheep A golden light is shimmering across the beechwood trees, And the long summer silence broods on slow-lifting seas.

One Day in The Philippines

everyday living on every side, and touches it kindly. Hence it is not strange that, in the new school of the first rose blush of the coming day blooms over the emerald-green mountains. They are the stirrings How the young people are reaching out on fresh paths of inquiry is seen by reading the Japanese magazines. The whole vast area of anings of light in the east and calls cient, medieval, and modern history upon all dumb things to be up and dumb things about. Tubby Cottontail

By MILLICENT J. TAYLOR

school grounds. Such a soft nest it was, all made of long grasses and lined with bits of Mother Cottontail's brown fur. Tubby cuddled up all cozy and sleepy until one exciting day when he woke up with a start. Crackle! Crackle!

"What's that queer noise?" he whispered, wriggling his nose. But there was no answer. His brothers had gone away. Every one. He was

Crackle! Crackle! And it was growing rather warm. Tubby had never heard of burning the dry field grass, but peering over the edge of the nest he saw some stems curl with the bright licking flame. Then near, maybe too near, he saw a tall human pair of legs and a rake. "L guess I'd better go visiting," he exclaimed, and fled.

The baby rabbit ran and ran. Where he was going he didn't know, for the world was much bigger than Mother Cottontail had told him. At last he came to the schoolvard fence. and pop! through a tiny hole.

"Thank my ears and whiskers, I'm this far!" he said, panting.
"Bow! Wow! Wow!" A big woolly
thing was rushing at him, wagging its tail and making such a racket! Tubby scampered across a bare ope space, dodging a bouncing round thing as he ran. "Bow! Wow! Wow! Where could he go? There were many feet, but no rakes and no crackle. And now a jolly, happy noise, he liked. But there was no time to be lost. Pop! He leaped into something soft.

"A baby rabbit!" he heard in happy "Just' as I sat down to lace up the covering of this ball, he jumped into my arms. Did you see?"

The soft place was warm and friendly, so Tubby sat very still, his little heart going thump-thump. He felt himself gently lifted. He opened

one eye. Then another.

A red-halred, snub-nosed boy was holding him. holding him. All around were clustered heads-light, dark, smooth, and many pairs of eyes, look-

ing and looking. The Fourth Grade Could it rain oats forever?
"Oh, Tubby, you naughty, naughty little bunny!" And he was caught up

into the arms of laughing Jimmy

Dale, spanked (very softly) on his little cottontail, then held lovingly.

When the snow melted the Fourth Grade built a beautiful little house

and yard for Tubby and some Third

Grade bunnies out of doors under a big willow tree. There he loved to

play, with the fresh breezes blow-ing his thick fur the wrong way.

Each day the children picked deli-

cious juicy dandelion greens for him,

and took him into the schoolroom

for his classes. Then vacation be-

Something to Do

Making a Dolls' Garden

You will want some pictures of flowers and trees for this game.

Daddy's last year's seed catalogue will do splendidly. Cut out the pic-

tures of all the prettiest flowers and trees. If they are not colored you can make them look more at-

tractive by tinting them with cray-

ons or your water paints. Then

paste each picture onto a piece of

cardboard, leaving an extra piece of

cardboard at the base of the flower.

Double back this extra piece and make the picture stand.

When you have prepared a number

of flowers and trees, you can make

a charming garden for your dolls.

If you have a sand tray, you can

arrange your garden on that. If not

the table or nursery floor will do

very well. You can put a few little

seats about among the flowers, and

your dollies can rest in these and

used to his new leather collar

bons of honorable mention.

look at Tubby again.

to be seen!

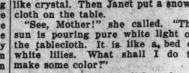

"That'll be scrumptious," replied gave him the pretty blue bow he had

Rainbows and Music

ANET was very busy helping Mother by working in the kitchen. She wished that all the work were done so that she could go into the garden and enjoy the lovely afternoon. The flowers in the garden back of the kitchen seemed to beckon her to come out to share the sunshine with them. So she worked all the faster to get the cleaning finished.

ANET was very busy helping like crystal. Then Janet put a snowy cloth on the table. "The bronze-colored chrysanthemums. The little girl was singing happily. "That is what is so wonderful to me," Janet's mother whispered to her self. "My little girl can make music and rainbows too, so that everyone about her is happy."

Grant came into the kitchen, "I have washed all the pots and pans." "Oh, how they glisten!" exclaimed

leaning finished.

"See, Mother!" she cried, as Mrs. asked Janet after five minutes' pol-

ishing. Her mother moved the bowl a tiny bit and at once ribbons of red orange, yellow, green, blue, indigo and violet colors were stretched along the tablecloth.

"Oh! What a wonderful rainbow! exclaimed Janet. "This has turned out a really beau

tiful rainbow day, Mother," said Janet, "and I was afraid it was going to be dull and stupid because there was housework to do." "You have been helping Mother

make everything so sweet and clean that rainbows were sure to come into the house, Janet," said her mother. "Do you know, Mother, I feel

rainbow springing up in my heart. I just feel it will burst into a song." "Just like this rainbow bowl," said her mother.

It gave out a clear crystal note, sweet and ringing, that lasted a long

Janet ran to the piano and after striking several keys called out, "Why, that note is F sharp." Mrs. Grant hurried into the kitchen and returned with a dipper of water

She poured the water into the bowl and then struck the side of it again with the silver fork. It gave out a sound just a tiny little bit lower. "What note is that?" she called. Janet struck the key again, and then the key half a tone lower. "It is

last." He gave the edge of the bag a yank with his tiny teeth.

Swish! Shower! Patter! Patter!
Oats came down upon a bewildered brown rabbit—into his eyes, his ears, his nose. Then came the bag. "My whiskers, what has happened!"
Could it rain oats forever?

about on her toes. "I know something just as wonder Jimmy.

"We are," answered the whole Janet, clapping her hands.

"What is it Mother?"

Two Little Scatterers

In a very short while Mrs. Grant, coked into the garden and saw Janet but Bobby and Betty were glad when they reached the country

and smelled the pine woods.

"First stop for lunch," called
Uncle John, and Aunt Sally began to collect the lunch boxes. "This is a lovely place to eat our lunch," said Betty. The pine trees seemed almost to touch the sky, the birds sang cheerily, and a bubbling brook laughed and chattered to itself

as it hurried over the stones.
"From now on we shall be in the country," said Uncle John, "until we reach the old white house where your cousins are eagerly waiting for you. That reminds me," and he began to search in his pockets. "Have you lost something?" po-litely questioned Betty.

, I've put something away so safely that I can't find it," jokingly replied Uncle John. "I want my package, so that I can begin my

The twins looked puzzled but said nothing until their uncle finally brought out a very small, flat pack-

"I belong to the Seed Scatterers." said Uncle John proudly. Then Aunt Sally opened her pocketbook and took out another thin package. "You watch me as we ride through

the country," continued Uncle John. 'When we come to a piece of ground which is bare and homely I shall stop and scatter some seeds over the place. Aunt Sally belongs, too, and we watch for a spot that is brown and plain, or a road that has no flowers along its side. Many times the little schoolhouses haven't a tree or a flower near them. I think the children would enjoy their school better if they could see red and yel-low and blue and pink flowers each doll insisted that his national around them. Of course, we do not scatter any seeds which will bother the farmers and we choose seeds which will grow by the wayside."

"I am scattering petunias today," had spent time arguing about what added Aunt Sally, "and sometimes we scatter phlox, forget-me-nots, "We shall yet have time for one we scatter phlox, forget-me-nots, pinks, portulaccas and ladies' delights.

"I wish we could belong too," said agreement. "You may," cheerily assured Uncle

John, "and right away. All you have to do is to spend ten cents a year for a package of seeds to scatter, and repeat this sentence after me." Betty and Bobby listened carefully and repeated slowly: "I hereby

faithfully promise to scatter one package of flower seeds along the roadsides in the open fields or on a deserted patch."

"Now you belong to the Society of Seed Scatterers," said Uncle John. 'A lady in Boston started the idea a few years ago and since then there have been flower seeds scattered on All gold and shining every day, the sides of mountains like Mt. Carmel and Mt. "I do wish we had some seeds now," sighed Betty. Aunt Sally smiled wisely and dipped her hand into her bag. She brought out two small packages which she handed to the twins.

"Oh, seeds for us both!" cried Betty in delight. "Mine are colored petunias and Bobby's seeds are blue

larkspurs. There's a verse on the paper with them." She read aloud slowly:

Scatter seeds along your way, Making barren places gay, Such a little thing to do, Bringing joy and fragrance too.

Scatter seeds along your way, Bringing sunshine day by day, When your flowers lovely grow Beauty all the earth shall know.

"There, now we are really two little Seed Scatterers," said Betty with satisfaction "Let's choose the schoolhouses."

suggested Bobby.
"Good!" cried Betty, "and when we are in school we'll think of those other children watching our flowers grow.'

In Annabelle's Nursery

"We have time for one song," said a wee doll in the Nursery one morn-ing, for all the dolls were up early and dressed long before breakfast time. "Then," said the little American

doll promptly as he passed song books, "we shall sing 'The Star-Spangled Banner.'

"Oh, no, no!" said the French doll, "the Marseillaise." There were dolls in the Nursery song be the one sung. When Annabelle came to say would soon be served, the little dolls were almost in tears because they

song—a song that will include all nations," said Annabelle. The dolls turned expectantly to the Betty, and Bobby nodded his head in page Annabelle announced and as Annabelle played the accompani ment on the little nursery piano the

dolls sang, "Joy to the World." Much as any doll would have enjoyed singing his national song, this song to the whole world was more crowd went to the breakfast room their faces beamed with the joy they had breathed in song to all the world.

The Smiling Sun

EDUCATIONAL

Biography Entering Curriculum of One College, Then Another of eccentrics and produces a Barnum. Maximilian Harden in Germany, best of all Gamaliel Bradford in America,

lege department in this subject, and who is now head of the new department of biography at Dart-mouth College, presents his ideas in the following article.

N THE colleges which are sensitive to the currents of modern life, a constant change in the academic curriculum is being under-taken. One of the main charactertics of this change is the substitution of elective courses for required courses, even in the first two years of college. The single track upon which all the minds of students in the nineteenth century had to run has become a network of tracks like the reason for the many courses is fundamentally the same as for the many tracks: the students are going to different destinations. The old curriculum prepared students for the professions; the new curriculum is preparing students for the whole range of human life. To reach their destinations, shorter and more diversified runs are necessary.

As students now come to college

not to make the station "law" or "medicine," but rather "life," what they desire from their college course is not so much discipline as wisdom. Throughout the course indeed there is a feeling of skepticism about the worth of the college curriculum that never entered the thoughts of the older generation of students, who had bought tickets for a longer journey. The distinction so commonly drawn between books and life by those not acquainted with the life by those not acquainted with the best in either is now being drawn by some college students themselves. Hence it becomes desirable to make the connection between the two abundantly clear to those who wish to become acquainted with books only for the sake of becoming acquainted with life. In his recent autobiography, Dr. Charles M. Sheldon says, "I have always found more sermons in people than in books, unless I could find the people in the books." The easiest method of showing college students that books grow out of life and minister to life is by making them intimately acquainted with books that have "people" in them. And the best way of making these same students enlarge their ideas both of books and of life and of the connection between them is of the connection between them is by acquainting them with those books that have the biggest people in them. Which means that college education may be made vital by Kind to Avoid

Some readers of these lines may make an instant protest. They will remember that some of the most sturemember that some of the most stupled books they have ever read are biographies. When Herndon returned from his Boston trip to Springfield, Ill., he brought Lincoln a life of Burke to read which Lincoln ing the detail work of administration. But in coming to the university of the state, and the said it was a life of Burke to read which Lincoln threw down because he said it was "all eulogy." And if one of the purposes of introducing biography into the college curriculum is to prove the connection between books and life, we must not put into the hands of the students books which would make the noblest men and women of the trade that work of the students books which would make the noblest men and women of the purpose of the university."

In detail work of administration to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university amoving wheel, that retains its baltion. But in coming to the university and the university and the university and the university and the university is going toward something.

"And last, the sense of craftsman-ship. The parents of the students and the university is going toward something."

"And last, the sense of craftsman-ship. The parents of the university of Wisconsin want their children educated for the work of the university."

history unlifelike. Biography should be as intelligently worked out and pursued as are many other subjects. The study of biography should indicate the sentiment of parents and has come to the conclusion, "briefly, that they want their sons and daugh
of life, not Lway from it. Hays, Kan. Special Correspondence EVERY morning more than 6000 country boys and girls in western Kansas clamber into big ern Kansas clamber into big motorbusses and are carried to modern, well-equipped school build-ings, there to be taught by corps of efficient and well-trained teachers. Yet less than seven years ago these same boys and girls—or per-haps their older brothers and sisters-harnessed the family horse to the buggy or cranked the family "flivver" and drove to one-room, one-teacher schools, there to receive some slight attention from an over worked teacher wrestling bravely with an antiquated system.

The change has been due to the onsolidated school movement movement which has literally trans formed whole communities in western Kansas during the past seven years. And back of that movement is C. E. Rarick, head of the rural education department of Kansas State Teachers' College of Hays. ers' Association in recognition of the among the rural schools of western Kansas.

Seven years ago there was not single consolidated school in the western half of the State. Then on the morning of Oct. 19, 1919, a train whistled into the little town of La-Crosse, Kan. There was nothing un-usual in that; it had done the same thing many mornings for many years. A small group of men and women boarded the train. That, too, had often occurred before. But out of this very ordinary event was to grow a movement that was not in any sense ordinary or unimportant.
Mr. Rarick was piloting a group of
school people from this section to
the San Luis Valley in Colorado to study the consolidation of schools. And the trip marked the beginning of a new era of rural education in western Kansas.

Convinced In the party were a number of county superintendents of schools, principals and superintendents of town schools, and several publicspirited citizens who were vitally interested in the project. The group visited the schools at Montevista,

> CLOTH BUYING SLOWED UP BY A LATE SEASON

Chicago Merchants Delay in Taking Fall Goods—Sheer Silks Are Very Popular

CHICAGO, April 5 (Special)—The lateness of the season and the general policy of merchants to buy as needed, with little interest in future buying, has delayed many of the local houses from pushing fall lines.

The business for summer is opening up, and at the moment it is almost entirely a question of weather. Given two fine days there is a rush of business, but blizzards and cold rains are decided deterrents.

While there has been much talk of the decline in prints, this market finds that the sale of printed sitts market finds

While there has been much talk of the decline in prints, this market finds that the sale of printed silks is normal for this time of year. If the compari-son is made with last year then there will be a drop noticeable, but last year was an abnormal one and none of the will be a drop noticeable, but last year was an abnormal one, and none of the mills could keep up with the demand.

Also the introduction of new wide widths in silks, averaging from 50 to 54-inch, did much to accelerate business for the first part of the year. Now these widths are still wanted, but at the moment it is the 40-inch all-over prints which are in first demand. prints which are in first demand.

SINCLAIR OIL HAS SUBSTANTIAL PROFIT

FALL RIVER., Mass., April 3 (Special)—With buyers showing considerable activity on inquiry, but little as to trading, this has been an outstandingly dull week in the local cloth market. Plain goods of all kinds have been in meager request and to that extent only for spot and nearby deliveries.

Considerable inquiry for sateens, with delivery dates running through the next twe months, has been noted, but the mills are slow in closing such contracts as the buyers insist on a quarter of a cent reduction on time orders. The most optimistic estimate of the existing scale of operations is of the existing scale of operations is

65 per cent.

PRICE TREND FOR LEATHER IS DOWNWARD

Spring Business Disappointing - Buyers' Market Generally Prevails

Sole leather tanners have little to say about present conditions, or those of the future, taking what new busicomes to them uncomplainingly, kful that things are no worse.

alers in oak sole leather report a

Dealers in oak sole leather report a daily booking of small sales. Backs, bends, sides, and offal move regularly enough, and their aggregate may count up to greater figures than apparent, but the abnormal dullness of this spring's business is disappointing. Tannery run of standard backs are quoted at 43@45c for heavy mediums. Common tannages of overweights, superfluously branded, are obtainable at 38@42c, Quite a smart bit of trading was done in the better selection of finder's bends at 60@70c. Texas bloom X bends are listed at 75c.

Oak offal has been slow of sale for a week or more, but there is a strong effort manifested to keep prices steady, a low supply assisting to that end. Rough double shoulders are offered at 42@43c, light weights preferred. The heavier weights are reported as somewhat weak.

Offal Market Dragsy

The demand for single shoulders is dragsy. The heavier sort is listed at 28@30c, though certain buyers claim to have supplied their needs at 26@28c. Prime oak bellies are still selling at 28c, Heads are in short supply, and range in price from 16c to 18c, according to selections.

Union sole leather tanners report rather a dull week, with a softening trend to quotations. Heavy packer steer backs are quoted at 44@45c, medium weights 42@48c, country hidebacks at 38@40c and selected bends at 54@56c.

The demand for union offal continues active and prices are strong. Shoulders are 28@80c, bellies 24@26c and heads are firm at 16c. Back orders for offal are still on the books.

Conditions in the calf skin markets are quiet, supply above normal, and Offal Market Draggy

Conditions in the calf skin markets are quiet, supply above normal, and prices easy. Listed rates do not show any marked changes, but a buyer on business bent may break fully two cents off quotations. The better grades of plump colored, chrome tanned skins are offered at 46@48c, No. 2 selections 42@44c, with third choice obtainable at 35@38c.

to stagnant. Prices are flexible, with a downward trend, ranging from 3 to 5c below rates obtained for weights required for men's shoes. The call for poze calf skins is spotty.

Tanners of side upper leather are busy filling in orders, and shipping on what back orders remain on the books. Price conditions depend largely on the quantity involved in the bidding. The cheaper grades of full grain, chrome sides ranging in price from 18@22c, get the bulk of attention. Top grades of the same, quoted at 26@23c, move slowly.

of the same, quoted at 26@28c, move slowly.

Bark and combination tannages are not very active. Prices are soft, and supply is abundant. Elk leather is fairly active in the lower grades, 3 quoted at 14@20c. There is also some business booked for a line offered at 22@24c, but the better selections listed at 30@85c, are a bit draggy. A slight improvement. In the call for split leather is reported. All buyers are seeking concessions and are very cautious in making bids for sizable lots. Choice flexible splits are offered at 16@17@18c, but the call for stock obtainable at 9 to 12c is uncommonly active. Top grades of splits for shoe linings are fairly active at 12@15c, but the cheaper sort has the better part of the demand at 10@11c.

The demand for patent leather is not equal to that of past seasons owing to the popularity of colored kid and calf skins. Quotations are lower than recorded at the beginning of the year.

Selected chrome patent sides, good

selected chrome patent sides, good tannage but not the best, is obtainable at 38@40c. A prime medium grade is listed at 28@22c. Cheaper lots are available at 20@24c. Market conditions are nearer weakness than they have been for months.

available at 200224. Market countitions are nearer weakness than they have been for months.

Sheepskin Business Dull

New business in sheepskins is not what was expected at this season of the year. Top selections of glazed black skins are listed at 15@18c, seconds from 10c to 14c, with the cheaper sort quoted at 6c to 9c. Russets are slow of sale. The better grades are offered at 17@18c, prime mediums 11 @16c and odd lots 6@10c.

Quotations on first grades of combination tanned skins are 16@20c, good medium grade 12@15c and a cheaper grade, all weights and spread, 7@11c. The call for ooze sheepskin is draggy. Choicest selections of skins for shoe linings are offered at 16@19c, medium grades 11@14c, with cheaper lots obtainable at 6@10c.

Chrome white sheepskins are fairly active, but colors of the same are quiet. Choice selected skins bring 19@24c. A lower grade is offered at 10@16c. No. 1 blacks are 18@22c, medium grades 12@16c, with the lower sort available from 3 to 10c.

Glazed kid had rather a dull March business as a whole, certain grades accumulating, and quotations slipping downward quiet a bit. Concessions on black skins varied from 2 to 5c.

Top selections of colors of fine quality and small spread, are now listed at 75@96c, with same grade in black offered at 65@70c. White kid, also parchment and gray, are in good demand. Kid tanners consider the lull in new business temporary, as kid is now being used in sil grades and sizes.

Stanford Swimmer Takes National 220 and 440-Yard Titles

IN TWO EVENTS

ANNAPOLIS, Md., April 5 (AP)st, middle West and West vied for lional intercollegiate individual imming honors in the Naval Acadny tank Saturday, and a double are of the widely scattered crowns ent to J. W. O'Connor, Leland Standullersity's star. O'Connor will ke back with him to Palo Alto, Calif., national championships in the 220-rd and 440-yard freestyle swims. He early possessed the west coast re-nal 220-yard title, and in the 1924 nple game he swam on a record-king 800-meter team.

Olympic game he swam on a record-breaking 800-meter team.

The meet was replete with close finishes, one of them in the wake of O'Connor in the 440. He, however, was two yards to the good when Capt. John H. Hawkins '26 of Princeton and George B. Coale '27 of Annapolis slapped the finish almost simultaneously. Six minutes of thought on the part of the judges gave second place to Hawkins. Coale also lost out for second honors when he trailed in O'Connor's wake in the 220, Harry M. Lewis of Rutgers beating him out. Lewis swam a great 50-yard dash with P. A. Wyckoff '26, of Annapolis, Capt. Arthur R. Rule Jr. '26, Annapolis, G. B. Herschberger '27, Wisconsin's "Big Ten" champion, R. E. Williams '27 of Stanford and J. S. Letcher '28 of Washington and Lee All six hit the finish with the distance between the first and last scarcely calculable in inches. Lewis got the verdict after several minutes of conference by the judges with Wyckoff evened the score when he asily won the 100-yard free style, with Lewis in third place.

A duel to settle an old issue between W. C. O'Brien '26 of Illinois and M. W. Carter '28 of Minnesota took place in in the fancy dive. O'Brien defeated Carter in conference dual meets, but fell victim to him in the "Big Ten" championships. He evened the score Saturday and saw Carter land in third place. D. C. Fall '26, second place winner in the Olympics in 1924, slipped badly and Stanford's chance of a third national title-holder went with him.

H. C. Allan '27 of Annapolis did not

Saturday and saw Carter land in third place. D. C. Fall '26, second place winner in the Olympics in 1924, slipped badly and Stanford's chance of a third national title-holder went with him.

H. C. Allan '27 of Annapolis did not have any trouble in winning the 200-yard breaststroke title, and J. E. Hill '27, Minnesota's "Big Ten" 150-yard backstroke champlon, graduated into the national title ranks with a yard to spare over Captain Rule of Annapolis. The summary:

are ower Captain Rule of Annapolis. The summary:

50-Yard Freestyle—Won by H. M. Sewis '28, Rutgers; P. A. Wyckoff '26, onnapolis, second; A. R. Rule Jr. '26, Innapolis, third; G. B. Herscherger '27, Isconsin, fourth. Time—25s.

100-Yard Freestyle—Won by P. A. Syckoff '26, Annapolis; G. B. Herscherger '27, Wisconsin, second; H. M. ewis '28, Rutgers, third; R. E. Williams I. Stanford, fourth. Time—55.5s.

120-Yard Freestyle—Won by J. W. 'Connor '26, Stanford; H. M. Lewis '28, utgers, second; G. B. Coale '27, Anapolis, third: Frank Turner '27, Anapolis, fourth. Time—2m. 26.1s.

40-Yard Freestyle—Won by J. W. 'Connor '26, Stanford; J. H. Hawkins S. Frinceton, second; G. B. Coale '27, anapolis, third: C. B. Stevenson '27, Itanford, fourth. Time—5m. 23.8s.

160-Yard Backstroke—Won by J. E. Illi '27, Minnesota; A. R. Rule Jr. '26, Innapolis, second; A. J. Bowren '28, rinceton, third; A. J. Allen '26, Stanford, fourth. Time—1m. 48.1s.

200-Yard Breaststroke—Won by H. C. (Ihen '27, Annapolis, Second; A. J. McClennan, ity College of Detroit, second; W. W. Co'Brien '28, Lehigh, fourth. Time—2m. 44.7s.

Fancy Diving—Won by W. C. O'Brien '28, Illinois, '78.6 points; C. S. Cooper '27, unnapolis, second, '76.4 points; M. W. Zarter '28, Minnesota, third, '76.2 points; D. A. Fall '26, Stanford, fourth, '72.8 boints.

Mrs. Schoonmaker Wins Title Again

NEW YORK, April 5-Mrs. Leon M. ONE-MILE RACE WON re the women's foil champion of the United States. For the second

she conquered in a field of 18 without losing a bout, last week.

Three strips were fought, with two qualifying from each for the finals. Mrs. Schoonmaker and Mrs. Stuyvesant Fish, also of the Fencers' Club, qualified on the first, Miss Grace Voss, Senac Fencing School, and Miss Millicent Cope of Philadelphia Fencers, on the second, and Mrs. Charles Hopper, New York, and Mrs. Charles H. Voorhees, Fencers' Club, on the third.

Mrs. Schoonmaker won every bout in both the preliminaries and in the finals, while Mrs. Hopper was second, losing only to the winner, and Mrs. Voorhees third.

The other competitors included Miss Blanche Argenson, Chicago, Miss Ruth Brylawski, Miss Miriam Clair, Miss Amy Van Hauser, Miss Miriam Clair, Miss Amy Van Hauser, Miss Miriam Clair, Miss Amy Van Hauser, Miss Miriam Clair, Miss Agnes conlon, Mrs. Ottlile Foy, Miss Elsie Mucke, Miss Mollle Burnside, Mrs. Harold Van Buskirk, and Miss Margherita Burnside, all of New York.

CALIFORNIA CAPTURES FIRST GAME OF SERIES

BERKELEY, Calif., April 5 (Spetal)—Coach Carl Zamloch's University of California basebail team opened to annual series with Leland Stanford University, here Saturday by deating its ancient rival, 3 to 1. The game was one of the best played and nost closely contested seen on the alifornia diamond this season.

W. H. Park '26, who started in the lox instead of J. L. Nounnan '26 California's regular boxman pitched a first-class game, going the full distance. Nounnan was out of the game lue to a decided slump which has affected his pitching for the last two weeks.

ceks.
C. O. Sobieski '28 of Stanford also tened a fine game; but his good work as offset by an excess of errors on e part of his teammates, one an erthrow of third base in the second ning which gave California two ns.

Olympic Games for Women This Summer

By the Associated Press
Gothenburg, Sweden, April 5

key, Stanford University, third. Distance—188ft. 4in
Relay—Won by Leland Stanford University, Time—3m. 21.4s.

NEWARK, April 5-Orlando Piani

WASHINGTON, D. C., April 5 (49)

—The Oxford-Cambridge lacrosse team from England met with defeat at the hands of University of Maryland, 11 to 4. Saturday, in the first contest of their 14-game tour of the East.

The score was tied three times during the first half, but the teamwork of the Marylanders during the second half enabled them to forge ahead.

Sir Esmé Howard, the British Ambassador, attended the game, which was played in a high school stadium here. The English players were presented to President Coolidge earlier in the day and after the game both teams were entertained at the embassy.

ECHMARTZ AND SEMAN WIN

doubles handball championship title yes terday when they defeated Charles Abruscati and Robert Powers of the Twenty-third Street Y. M. C. A. in the final game of the Crescent A. C., Brooklyn. The match, scheduled for decision on the best three in five games, went the limit of games before Schwartz and Seaman won, 11—21, 21—18, 10—21, 21—15, 21—11.

OHIO FOOTBALL PLANS
COLUMBUS, O., April 5 (P)—Only
juniors and sophomores should play football, and freshmen and others not on
varsity squads should play intramural
football coached by seniors who intend
to take up coaching, it was recommended
Saturday by the intercollegiate athletic
committee of the Ohio College Association. The report will be brought to the
attention of Ohio conference heads as an
ideal plan toward which the colleges and
universities of the state should work. OHIO FOOTBALL PLANS

OVERSEAS STARS IN 40 VICTORIES

United States Scores Only 41

French tennis star; Charles Hoff, Norwegian pole vaulter and Erich Hagenlacher, German billiard player. One world's title long held in the United States, one American indoor crown and a long string of records were carried off by the invading co-horts.

NEWARK, April 5—Orlando Piani scored a brilliant victory in straight heats over William Spencer, twice Unitel States champion, in one of the feature mile match races in the opening card of the Newark Velodrome this afternoon.

The Italian star went to the front in the first brush on the last lap and met the rushes of Spencer with an unbeatable sprint in 3m. 6 2-5s.

In the second heat, the Italian again rode from in front, Spencer with a rush on the last turn and drew almost even, but Piani rode away from him by a length. The time was 3m. 17 1-5s.

Fred Spencer, national sprint champion, bowed in successive heats to cecil Walker, alf-around title holder in another mile match race.

OXFORD-CAMBRIDGE

LOSE FIRST MATCH

WASHINGTON, D. C., April 5 (49)

The Oxford-Cambridge lacroses team

Hagenlacher, German billiard player.

One world's title long held in the United States, one American indoor to rown and a long string of records were carried off by the invading corowand a long string of records to the push. Jacob Schaefer after yielding the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the billiard and tennis realms fell under the impact of the push. Jacob Schaefer after yielding the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's title long the forty the forman billiar to prove the action of the form to the inverse after yielding the world's 18.2 balkline crown to Hagenlacher after having obtained an even break in the world's title long the forty the forty in the push. Jacob Schaefer after yielding the world's

events Adrian Paulen of Holland likewise failed to post a triumph in four
indoor middle distance starts, and
Gordon Goodwin, English waler, was
outstepped in his lone appearance on
this side of the Atlantic.

A. Claus Thunberg of Finland,
Olympic speed skating champion,
closed with a rush to carry off
several records and a series of
victories over Charles Jewtraw, but
failed previously to his quest failed previously to his quest of titles. After being outstroked by Joseph Moore and Charles Gorman in two indoor tests here, Thunberg failed oor tests here, Thunberg failed

two indoor tests here, Thunberg failed to win a single race at championship meets in St. John, N. B., and Binghamton, N. Y. In 20 starts, however, he won nine events.

The brilliant breaststroke swimming of Erich Rademacher, German champion, has been offset by six successive defeats administered to his backstroking teammate G. E. K. Froelich.

NEW YORK CHESS TEAM WINS NEW YORK; April 5—For the fourth me in a series of seven annual matches etween New York and Chicago chess time in a series of seven annual matches between New York and Chicago chess teams over the printing telegraph, the 10 players representing the engineers of the Bell Telephone Laboratories of this city have triumphed over the team of the Western Electric Company's manufacturing plant at Hawthorne, Chicago, by the score of 5½ to 3½, with one game unfinished. This will be adjudicated, although the decision will not affect the result of the match.

PROVIDENCE WINS, 2 TO 1 PROVIDENCE, R. I., April 5 (Special)—The Providence Football Club, playing against Bethlehem Steel Football Club, with several substitutes in the latter's lineup, won its American Soccer League contest here yesterday, 2 to 1.

Fitchburg Defeats Fargo for Title

Losers Take Second Prize and Salem Third in Baskerball Tourney

Special from Monitor Bureau Special from Monitor Eurean CHICAGO, April 5—Because it carried passing and shooting form at a high level of efficiency through to the end of the tourney, Fitchburg, Mass., today is celebrating the capture of the University of Chicago national interscholastic basketball championship. ndurance enabled the eastern team to defeat Fargo, N. D., 25 to 14, in the final of the eighth annual tournament in which 40 state and sectional chamin which 40 state and sectional champions or runners-up participated.

Second prize was taken by Fargo, and third fell to Salem, S. D., which defeated Pueblo, Colo., 13 to 12, in the play-off of teams which were eliminated in the semifinals. Pueblo placed fourth. Zanesville, O., by defeating Salt Lake City, Utah, 36 to 35, in a prillant scoring battle was first place.

Wins During Indoor Season

Wins During Indoor Season

NEW YORK, April 5 (P)—An echo
of overseas triumph rolls back
through the corridors of sportdom today as the contending forces in a comprehensive international indoor struggle withdrawn from the North American athletic arena.

The score sheet for 81 outstanding
international clashes between individual stars in seven branches of competition gives the United States a
scant advantage, with 41 triumphs
against 40 defeats, but a major share
of glory went to three athletes from
distant lands—J. Rene Lacoste,
French tennis star; Charles Hoff,
Norwegian pole vaulter and Erich

PROFESSIONAL GOLF TEAM TO BE STRONG

Hagen Favors Taking 10 or 12 Players to England

PINEHURST, N. C., April 5 (P)—A strong team of golf professionals will represent the United States in June in a match against the British professionals in the London district prior to the open championship, Walter C.
Hagen, United States professional
champion, announced here Saturday.
He said the American team would
sail on the Aquitania on May 26. Hagen declared he was asked to take four players to Britain with a guarantee of \$250 for each man, but he decided that it was better to have a team of 10 or 12 players, provided they were willing to divide the \$1000 guarantee.

they were willing to divide the \$1000 guarantee.

The following players are expected by Hagen to take part in the match: Waiter C. Hagen, Macdonald Smith, James M. Barnes, Robert A. Cruickshank, Leonard H. Diegel, A. C. Watrous, John C. Farrell, Thomas D. Armour, A. L. Espinosa, William Mehlhorn, Emmet French, Joseph H. Kirkwood, Eugene Sarazen and Gilbert Nichols.

"It will be up to the British," he "It will be up to the British," he said, "to name as many players for their side as we wish to start for America."

George Duncan is to head the British team, Other British players who are expected to take part are Abe Mitchell, A. W. E. Compston, the Whitcomb brothers, Arthur G. Havers, James Ockensen, Sidney Winger, Scarge Cadd, Leonard Helland, and Dufton, coach of the New York Athletic Club, in the final round of the tourney at the Shelton Hotel roof court, in straight games, 15—7, 15—5, 15—12.

It was a closer battle than the score showed, as Dufton was always roof account of the New York Athletic Club, in the shelton Hotel roof court, in straight games, 25—7, 15—5, 15—12.

It was a closer battle than the score showed, as Dufton was always roof any lapse.

KENNEDY ENTERS B. A. A. RUN The star marathoner to be announced The star marathoner to be announced among other entries received yesterday by Thomas J. Kanaly for the Boston Athletic Association Marathon, April 19, was that of William J. Kennedy of the Cygnet A. C., Port Chester, N. Y. Kennedy is a veteran of the race and won it in 1917. A clubmate, John Rosl, also sent in an entry. The others were Frank A. Cellini of Quincy; George Costarakis, Dorchester Club; Horatio Stanton, Italian A. C., Westerly, R. I., and George Turner of Boston.

Bowlers Fail to Dislodge Leaders

Ashton and Young in Doubles Feature With a Score of 1355

TOLEDO, O., April 5 (Special)—
More than 100 five-man teams battled for honors in the American Bowling Congress tournament over the weekend but none was able to dislodge any of the leaders.

The bright spot in the returns yesterday was the score of 1355 made by Charles Ashton and Philip Young of Akron, O., in the doubles. Their individual scores of 650 and 750 gave them a tie for first place in the standings with the Gardella-Tocco team of Detroit. roit.

Notwithstanding the inability of the

teams to count high in scoring, several individuals turned in good scores with the result that three new names are found on the list of leading individuals.

Michael Winters, Chicago, bowled

711, giving him fourth place; T. Pullman, Chicago, 709, held sixth and Thomas Harkins, St. Paul, with 705, acquired eighth place in the singles vent. Harkin's individual score was the climax of good bowling in other events and he is now in third place in all events with 1969 pins for his

first.

Hugh Bakers, No. 1, Milwaukee, was high team with 2932 pins.

DUFTON BOWS TO CHAMPION WARD

Victor Takes Open Crown After a Close Battle

Special from Monitor Burcas NEW YORK, April 5—Francis Ward, professional at the City Ath-letic Club, succeeded Walter A. Kin-

gate, George Gadd, Leonard Holland, James Allis and Theodore Ray. The match will be played at Wentworth near London.

Ward, however, was too powerful as well as too active for his opponent. his ability to get apparently sure factor in his victory. Only in the fina game was Dufton able to fight him on even terms and gain the lead, which came in the sixth inning, at 5—4. This ended the chances of the craftier player, as Ward ran the score up to 14 in the next two hands. The sum-

mary: UNITED STATES OPEN SQUASH TENNIS CHAMPIONSHIP Final Round

Francis Ward, City Athletic Club, de-teated Rowland Dufton, New York Ath-letic Club, 15—7, 15—5, 15—12.

WEST POINT LACROSSE VICTOR WEST POINT LACROSSE VICTOR
WEST POINT, N. Y., April 5—Uffied
States Military Academy won at lacrosse
Saturday in the opening game of the
season, defeating the Onondaga Indians
of Syracuse, 4 to 2, in a well-played
game. The Indians 'led at half-time, 1
to 0, and were still out in front until
within five minutes of the final half,
when Army unleashed a smashing attack
which carried them to victory.

MOORE IS GIVEN MEDAL WASHINGTON, D. C., April 5 (P)—
The medal of the National Rife Association of America was presented by President Coolidge Saturday to Samuel J.
Moore of Newtonville, Mass., on hehalf
of the association. Moore recently set
up a new record for consecutive bullseyes.

Every Day—

I wouldn't apend another penny sending razor blades to be sharpened. When my blades get so bad that no mere stropping device will put them on their feet again, I do what 40,000 other men are doing—make them better than new in 30 seconds with the Warner-Jones Sharpener. It's a brand new device which enables me to hone and strop my blades exactly like a barber, but with greater precision and speed. It's as easy as winding your watch, and I don't want a cent of your money if the Warner-Jones Sharpener doesn't make it possible for you to shave with A better-than-new blade every morning Read what mers say:

"Best shave I've had in two years."—W.G.R.

"Wouldn't sell for \$10 if I couldn't get more."—G. W.

"Send two more for friends."—A. T. G.

Every Warner-Jones Sharpener is sold on a strictly Free Trial basis. If for any reason you don't like it, send it back! Sharpens all makes of safety razor blades.

Don't Send Me a Penny

all makes of safety rasor blades.

Don't Send Me a Penny
Just drop us a postoard saying:
"Send me a Warner-Jones Sharpener. I will
pay the postman \$8.50. If at any time within
10 days if is unsatisfactory, for any reason,
you are to return my money at once upon receipt of the sharpener."

"Beisbol" Is Baseball

in Latin Vocabulary By the Assobiated Press

Nogales, Ariz., April 5 DEISBOL" doesn't look it, or B sound it, but it's "baseball." "Beisbol," newly coined word, meets the demands of Latin pronunciation for the United States national game. "Beisbol" fast is becoming a favorite sport of the

sombreroed southern republic. "Beisbol" chatter from the Mexican west coast says that organized teams are maintained in Hermosillo, Empalme and Guaymas, State of Sonora, and in Mazatlan and Culican, State of Sinalca.

Pearson Defeated in Opening Match

Special from Monitor Bureau

NEW YORK, April 5—Representa-ves of other cities were the winners the matches this morning at the pening of the United States court in all events with 1969 pins for his nine games.

J. Blue, Indianapolis, added up games to make 1920 pins and fifth place in all events.

Eight pairs bowled more than 1200 pins in doubles and 12 ndividuals scored over 630 in their singles.

Young of Akron had a chance to make an all-time record in the doubles game, but a foul in the last string brought the pair into a tie for first.

Racquet and Tennis Club.

George H. Huband, an Englishman, now a resident of Chicago, caused the greatest surprise in his first appearance in the title tourney, by defeating E. P. Pearson, of the home club with sease, 6—2, 6—0, 6—2. Pearson had been regarded as one of the steadlest to fol local players, and this overwhelming defeat came as a surprise. Pearson made his best showing in the final place in the title tourney, by defeating E. P. Pearson, of the home club with sease, 6—2, 6—0, 6—2. Pearson had been regarded as one of the steadlest to make an all-time record in the doubles game, but a foul in the last string brought the pair into a tie for first.

set, when he carried the score to 2-all and fought two long deuce games in the remaining four.

W. C. Wright of Philadelphia, also scored a straight-set victory, in the second round, over W. T. Adee, of New York, 6-0,6-2,6-1. But this had been expected, as Adee is a novice at the game, while Wright has always extra inning. the game, while Wright has always extra inning. seen a contender. This placed Wright not the semifinals.

H. C. Clark of Boston won his first Every shot was an effort, as his conbeen a contender. This placed Wright in the semifinals

H. C. Clark of Boston won his first match without a contest, when Hewitt Morgan, the Harvard Club star, was compelled to withdraw. This was a disappointment as the battle which Morgan put up against Jay Gould two years ago was still in remembrance.

SCHAEFER NEW 18.1 CHAMPION

Captures Title From Hoppe, Who Has Held it Since 1912, 3600 to 2926

Special from Monitor Bureau

NEW YORK, April 5 — Jacob
Schaefer is the new world champion
at 18.1 balkline billiards, one shot in.
He captured the title from William
F. Hoppe, who has held the championship undisputed since 1912, as the second ship undisputed since 1912, as the result of the match at 3500 points, played during the last week in 300 point blocks. The final score was 3600 to 2926.

In addition to winning the title,

In addition to winning the title, Schaefer established a new record for grand average in this style of billiards, when he completed the entire match in his one hundred and fourth inning, making his average 34 64-104. In the old days of the game, Frank Ives had made a grand average of 22 10-45, in a 100-point game, and Hoppe, in a match with Sutton, had averaged slightly better than 24 in a match of 400 point blocks in which the total of the winner was 1580. Even Hoppe, though far behind, showed his great improvement in this style of opening of the United States court tennis singles championship at the Racquet and Tennis Club.

George H. Huband, an Englishman, now a resident of Chicago, caused the greatest surprise in his first appearance in the title tourney, by defeating E. P. Pearson, of the home club with end of the evening session, 144. The steadiness of Schaefer, however, which had been the distinguishing feature of his play all through the week, con-tinued to hold the advantage he had gained through the weak innings of Hoppe on Thursday and Friday. At

> that travelled clear across the table to hit the second object ball fair and true, kept the spectators busy applauding. It was all unavailing, however. Schaefer would merely set in with a carefully placed nursing run, and add another 30 or so to his string. The play in the two final blocks was real 18.1 balkline, and the fact that all of the long runs ended in the failure of attempts to get the balls out of the balk proved it. Hoppe, who had reof attempts to get the balls out of the balk proved it. Hoppe, who had resorted largely to three-cushion play on Friday, was once more the brilliant performer of previous years. Hoppe won the afternoon block, 329 to 300, and lost the evening session by only 70 points, in spite of the two runs of Schaefer of 74 and 102 which ended the battle, except for the few final points. The score by innings:
>
> Jacob Schaefer—(3000)—64 3 23 18 17 Jacob Schaefer—(3000)—84 3 23 18 17 26 67 0 85 24 26 50 0 0 74 102 21—600. Average for day—35 5-17. Grand average—34 84-104. Grand total—3600. W. F. Hoppe—(2367)—25 9 114 22 23 2 129 5 1 5 0 35 1 12 144 32—559. Average for day—34 15-16. Grand average—28 42-103. Grand total—2926. Referee—Albert G. Cutler.

TWO FOR REISELT Special from Monitor Bureau Special from Monitor Eurcal
CHICAGO, April 5-By taking both
games here Saturday, Otto Reiselt of
Philadelphia made it four out of six
against A. K. Hall of this city in the
title race of the National Championship.
Three-Cushion Billiard League, His
counts were 50 to 32 in 39 innings and
50 to 29 in 47 frames. Hall had high
runs of 14 and 5 against a pair of 68
for Reiselt.

HARVARD ELECTS OUTERBRIDGE Robert P. Outerbridge '28, of Superior, Wis., has been elected captain of the 1927 fencing team at Harvard University. The new leader was captain of his freshman team last year, and has fenced on the 6p6e team this season. Next year he intends to fence on both the épée and foils teams.

PENN OARSMEN HARD AT WORK

Coach Spuhn Makes Some Changes in the First Two Eights

PHILADELPHIA, Pa., April 5 (Special)—Coaches Fred W. Spuhn and Max Luft of the University of Pennsylvania caramen are making good progress in their first year here. Spuhn has kept the first two varsity and 150-pound crewmen in Philadelphia over the Easter holidays and has been rowing them twice a day. This will be continued until Friday, April 9.

Twenty-one varsity oarsmen are esting at the training house and two of Coach Luft's freshman eights are taking their meals at "The Arbor" on the campus. The freshman training table is an informal affair; but the first year oarsmen are following out Luft's ideas, although he has not announced any boating make-ups.

Several important changes have been made in the first two varsity eights. C. K. Elliott '26 of Philadelphia, who formerly attended William Penn Charter School, has been placed at bow in the first varsity and C. T. Hill '27, placed at No. 3 in the junior varsity, where Elliott formerly rowed. Hill is also a Philadelphia boy. H. J. Jordan '28 of Wilmington, Del., has replaced J. J. Kelleher '27, formerly of West Philadelphia High School at No. 2 in the varsity, the latter going to the same position in the junior varsity.

Borle at No. 6

Borle at No. 6 Borle at No. 6

Beauveau Borle '28, who stroked last year's heavyweight freshman eight is now rowing No. 6 in the varsity, after being tried out at No. 2 and No. 4. Borle, a Philadelphian, formerly attended St. Paul's School, Concord, N. H., where he rowed on the crew. His father was a noted oarsman at the University years ago.

Albert Nylund Jr. '27 has been placed at No. 8 with L. R. Fayle '26 of Los Angeles at No. 4. Fayle attended Harvard School on the coast before entering Pennsylvania. J. R. Sebastian '28, at No. 5, is one of the heaviest men in the crew, weighing 189. Sebastian somes from Lakewood, O.

wood, O.

Another westerner, F. C. Gentsch
28, of Ogden, Utah is at No. 7 with
D. K. Irmiger '26, the veteran pace
setter in the stroke seat. Irmiger
comes from Green Bay, Wis., where
he formerly attended East High
School. This will be Irmiger's third
year on the varsity squad. G. W.
Pflug-Felder '26, formerly of Northeast High School, Philadelphia, is the
varsity cozawain, although Coach.
Spuhn has been trying out several
boys.

Junior Varsity Eight:

In the junior varsity eight S. C.
Sweetser '28, of Wollaston, Mass., has
been placed at stroke. He occupied a
similar seat in the lightweight freshman eight last year and was selected
to stroke the crew at Poughkeepsie
when Borle was forced to quit a few
days before the regatta. He formerly
attended Quincy (Mass.) High School
and Stone School, Boston.

The rest of the junior varsity
makeup follows: No. 7, A. H. Swing
'27, of West Philadelphia High; No. 6,
D. W. Coates '28, of William Penn
Charter School; No. 5, W. A. Johnson
'28, Cleveland; No. 3, C. T. Hill, West
Philadelphia High School; No. 2, J. J.
Kelleher '27, West Philadelphia High
School; bow, J. R. Bailey, 28, Mansfield, O. J. P. Berry '28, of Central
High School, Philadelphia, is the
coxawain.

Riohard Redway '27 of Ilion, N. Y. Junior Varsity Eight ;

Crew Almost Intact

ennie '27. Wilmington, Del.; No. 4, T. Cutler '27. West Philadelphia; b. 3, A. W. Adkins '27. Washington, C.; No. 2, A. D. K. Mason '27. High-nd Park, Ill.; bow, J. W. Spirdle '28, utherford, N. J.; coxswain, H. S. idd. '27. Cincipara;

Brown, chairman of the Fennsylvania. Rowing Committee that the shell be named "George H. Frazier" in honor of the chairman of the University finance committee.

Coach Spuhn will have the first varsity crew try out the shell and provided it fits the men and rises the water well, it will be used in the first race against the United States Naval Academy at Annapolis, May 1.

The Red and Blue carsmen are also eagerly looking forward to the regattas with Yale University and Columbia University at Derby. Conn.. and Harvard University and Massachusetts Institute of Technology at Boston as well as the Childs Cup race with Columbia and Princeton University crews at Princeton during May and the Intercollegiate regatta at Poughkeepsie late in June.

ONTARIOS HYDRO PLANT ONTARIO'S HYDRO PLANT
TORONTO, Ont., March 31 (Special Correspondence)—A grant of \$1.250,000 has been made by the Ontario Legislature to the Ontario Hydroelectric Commission for the purpose of extension of transmission lines. The Provincial Premier, G. H. Ferguson, stated that the Province hoped for some plan for the power development of the Ottawa River on a scheme that would prove equally satisfactory to both Quebec and Ontario provinces. At Cameron Falls, on the Nipigon River, \$0,000 horsepower had been developed, but he hoped that a new vote would enable the commission to double the horsepower here.

CT AGAINST MODIFICATION

What Chey are Jaying.

RAYMOND ROBINS: "Tak financial profit from war, create a will to end war, and, like the saloon, dueling and slavery, it, too, will be banished by public opinion." 0

BISHOP MANNING: "Criticism and harsh judgment have a way of coming home to roost, and they often bear harder on the giver than on the receiver."

LORD DEWAR: "There are two classes, those who work, and those who explain how work ought to be done." 0

CHARLES HACKETT: "In Apperica there is little that is spontaneous in our opera. Even the applause is arranged, and much of it paid for."

PROF. H. C. HOWE: "Every coach that ever was worth his salt dislikes to have 'stars' on his team. The game of football is no place for leading ladies."

DR. CRICHTON MILLER: "We ought to be able to go on with our work, not for 11 months, but for 11 years, without a holiday."

FRANCIS H. SISSON: "No year has opened with so much prom-ise and so great a warrant for optimism as the year 1986." 0

GEORGE F. MILTON: The Solid South will melt before a wet candidate and the American people will never put a Tam-many tiger in the White House."

FRANK O. LOWDEN: "Wherever co-operative marketing is farthest advanced, there you find agriculture at its best estate." 0

HARRY E. HULL: "I doubt if any country really needs allens as such."

CHANGE IN TYPE

New Kind of Assistant Being Trained to Meet Pres-

Special from Monitor Bureau LONDON, March 23-The old idea that shop assistants, or store clerks, need have only the merest modicum of education, just he ability to give

The 150-pound crew which went irough the 1925 schedule without sing a race, is almost intact and insing a race, is almost intact and instinct in the instinct and instinct in the instinct and instinct and instinct and instinct and instinct and ins to the older or poorer customer, one who can understand the customer's wants even though they cannot fully explain them themselves, and who can suggest and advise in every way.

The managers in the shops of this

every way.

The managers in the shops of this and similar firms are usually well-educated men with examination qualifications to their credit. It is found, however, that there is still a lingering tendency among a certain type of customer to look down on shop assistants. But the evolution of modern industry is rapidly changing all this, and as more and more well-educated voung men and women well-educated voung men and women are respected in provided to the continental accords, in the League, but a coalition of smaller states can never be permitted to take better method of approach. They would be a stage on the road to the eventual goal. There exists already a pan-American union which might the League its authority. The Countries. well-educated young men and women enter the ranks of retail trade, so

will these foolish ideas die out.

Progressive firms do not simply ask take steps to produce them. They have schemes of education which include continuation schools for all their young employees from 14 years of age to 16. The best pupils are allowed to continue to attend up to the age of 18. In addition many firms pay the fees of employees who wish to attend evening classes; and spe-cial arrangements are made at pub-lic technical classes for the various branches of industry.

The aim of such firms is a liberal

continuative education for all their young people, and vocational train-ing in addition, in the case of certain selected workers. All the business firms connected with the Association for Education in Industry are work-ing on these or similar lines, with the result that they are bringing

firms connected with the Association for Education in Industry are working on these or similar lines, with the result that they are bringing education and industry into closer contact.

WHITE FARMERS ADVOCATED LILLOCET, B. C., March 25 (Special Correspondence) — William Adams, chairman of the resources committee of the local board of trade, in an address before that body axpressed the firm conviction finat the Pacific Great Eastern Railway will be built through to Prince George in the not distant future. He urged the planting of additional areas to fruit trees in order to take advantage of the extending market of northern British Columbia. He also arged that steps be taken to replace Chinese farmers in the Lillocet district with white farmers.

ONTARIO ESTITATES PASSED

SCANDINAVIAN WOMEN IN LEAD

Mrs. Corbett Ashby Says Swedish Marriage Is a Real Partnership

EDINBURGH, March 23 (Special orrespondence)-"Of all the won of the world, Scandinavian wo have beet attained real'equality," was the opinion expressed by Mrs. Corbett Ashby, president of the International Suffrage Alliance in an address on "The Task of Women in Euope," which she gave in Edinburgh

ecently. Mrs. Corbett Ashby said that the illiance, of which she was the first British president, was formed 25 years ago to unite the women of all countries who were interested in acquiring greater freedom and palitical responsibility. They had now a membership in 40 different countries, and in 29 of these women were full citizens. To their object of gain-ing the political vote they had now added that of obtaining real equality in the principal duties and respon-

sibilities between men and women. In Scandinavia girls shared equally with boys in the magnificent system of free state education, and had equal access to all the professions and to all posts in the civil service. They were only partially excluded from the war services and the church. The Swedish marriage law was the finest in the world, as it laid down that marriage was a real partnership be-tween husband and wife, and their duties and responsibilities to each other were equal. They had equal responsibilities to the children, and the home could not be sold without the consent of the wife. In Norway women were in the same position.

In Denmark they had a woman Minister of Education, and their in-dustrial legislation was so good that it was no longer necessary to accord women special protection. The greatest contrast was found round the basin of the Mediterranean, where the old Latin civilization had been inherited, but even there, since the congress in 1923, the municipal vote had been given to the women of Spain, Italy and Greece, and that was the first breach in the wall of obstruction. In the new countries carved out of the Russian, Austrian and Hungarian Empires women had, from the first, been treated as full

At most of her meetings Mrs.
Ashby spoke on "Disarmament," and
in Edinburgh all the women's organisations and the League of Nations Union co-operated in receiving the president of the International Suffrage Alliance.

the League its authority. The Council, or Councils, are necessary, and must maintain some autonomy, quite apart from the Assembly, which might otherwise, by a coalition of lit-tle nations, upset the practical ad-ministration of international affairs.

It is absurd to question the future of the League, which now comprises 55 powers. It founded the Permanent Court of International Justice. It set up a number of commissions to study questions of general interest. It has developed a remarkable international machinery. Its influence is extraordinary. It has settled many disputes which might have degenerated into conflicts. For example, it acted as mediator between Finland and Sweden, which claimed the Aland Islands. The Vilna trouble, which nearly produced war between Poland and Lithuania, was assuaged. The Upper Silesia controversy between Poland and Germany was smoothed over. The Albanian affair which interested Albania, Jugoslavia, and Greece, might have been even graver had it not been for the League. Certainly Italy behaved somewhat arbitrarily in respect to Corfu, but nevertheless the League played a useful rôle.

Then there was the litigation between Czechoslovakia and Poland over Javorzina, which ended happily. There was, further, the contention with regard to Memel. There were

EDITORIALS

It is in the supplemental statement, informally issued by the "spokesman for the Presi-

An Official Observer to the Philippines ident," rather than in the communication bearing the official stamp of the White House, that one discovers the actuating motive which prompted Mr. Coolidge to authorize a friendly

survey of the Philip-pines by his special emissary, Carmi A. Thompson of Cleveland, O. There are in both the official and semi-official statements the announcement, apparently purposely emphasized, that the mission is designed to reassure Gov.-Gen. Leonard Wood, who has remained uninterruptedly at his post for more than five years, of the continuing support of his policies by the Administration in Washington. There is included, likewise, an implied pledge of the continuance of the present political relations be-tween the Philippines and the United States. It is thus, no doubt, that it is hoped to reassure American capitalists who have made investments in the Islands, and to encourage those who may have held aloof. It is agreed, apparently, that the industrial and economic development which is possible will tend to solve many heretofore unsolved problems. The program as outlined in advance of the survey which Mr. Thompson will conduct or supervise offers little for the encouragement of the agitators who are insisting upon political independence in the archipelago.

But somewhat apart from strictly political considerations, and apart, also, from the acknowledged desire to encourage a more liberal investment of capital for the development of the natural resources of the Islands, is the wish of the President that a general survey be made "of what the United States is doing in the Philippines; what progress this Government is making there; what progress the people of the Islands are making; how education is progressing among the Filipino people." It is significant, in this connection, that this "spokesman" said the educational development of the Islands is one of the matters in which the President is vitally interested. "In general," this same interpreter announced, "the President is in search of all the information he can get concerning the Philippines and the Filipinos, in order that he may see what the United States can do to better conditions in the

This information should be available to any observing inquirer. Indeed some facts seem so evident that they already cry out so loudly that all who care to listen may hear and understand. The editor of the Monitor is in receipt of a personal letter from an American who has just visited Iloilo, next to Manila the largest city in the Islands. It is dated Feb. 20, 1926, and therefore presents a word picture of conditions now existing. It is written by one who is entirely unprejudiced and without any purpose other than to present the facts as he finds them. We quote from his letter:

I have been here for a fortnight now, and although the conditions in Manila may not approximate those here, in the second city of the group, I think it quite fair to say that they do. Here the saloon and the "dive" flourish even worse than in the States before prohibition. There is no restriction whatever as to the sale of alcohol in any form and quantity, to anyone in any stage of intoxication, at any hour of the day or night. Last night, at the hotel where I had been ill-advised enough to put up for a few days, a place operated by Americans, there was a drunken orgy practically all night, the participants being sailors fro ships in the harbor, the degenerate Americans-of whom there are a number here-half-castes, and natives. The same thing goes on in a number of places every night,

only varying in degree with the number of ships in port.
There is no check of any sort, despite the fact that this is American-territory, and that the Eighteenth Amendment certainly applies here morally, and in spirit, even though it appears that no competent authority has yet decided that it applies legally or in letter. But the main point is, it seems to me, that we, as the Nation which long ago assumed a moral as well as a physical and political guardianship over these Eastern peoples, are very delinquent in the exercise of that guardianship when we permit such examples of the white man's mora obliquity as this to exist under the eyes of the natives It lowers America's prestige among them, and breeds additional disrespect and scorn for the entire white race.

Moreover, such conditions are so strikingly opposed to the careful, beneficent English colonial rule in the same regard as to make one wonder if America, after all, is properly intrusted with the guardianship of an alien people. Nothing like the state of affairs here exists in any South Sea group, not even in French Tahiti. No such degenerate white men as hang about the saloons here would be permitted to remain in Samoa, Fiji, the Cook Group, or elsewhere in the British Pacific island possessions. Does it not logically follow that England inculcates into the native mind a deeper respect for her ways and her people than can America, so long as such a disgraceful state of affairs as the unrestricted sale of liquor to the natives in the Philippines continues?

Here is a condition known to exist. The mere recital of these facts would seem to indicate, at least in part, what the United States can do to better conditions in the Islands.

Public interest has the unfortunate habit of waning after an emergency has passed, and therefore it may be that

Coal Legislation Before Congress

the importance of the coal legislation which is now being considered by the American Congress may be overlooked. This is somewhat unfortunate, because the recent industrial strife in

the anthracite industry was sufficiently grave to warrant most serious consideration, and there is every reason for the public to demand measures which will so far protect the interests of all concerned that the experience will not be repeated. However, the fact that President Coolidge has sent a message to Congress urg-ing that coal legislation be enacted before adjournment may insure action at this time.

According to a report just compiled by the Anthracite Bureau of Information, anthracite miners struck 647 days between Jan. 1, 1900, and Feb. 18, 1926, which was equivalent to 7 per cent of the total elapsed time. Since the beginning of 1922 the miners have lost a total of 351 days through general strike, or 19.4 per cent of the elapsed time. From this compilation it is evident that the intensity of the industrial dispute in the anthracite industry has been

growing with the years and has undoubtedly been fanned by the compromises which worked but temporarily without satisfying anyone in particular.

The anthracite strikes recorded within the last quarter century were as follows:

1900—Sept. 12 to Oct. 29, or 47 days.
1902—May 12 to Oct. 23, or 164 days.
1906—April 1 to May 7, or 36 days, pending agreement.
1912—April 1 to May 20, or 49 days, pending agreement.

1922—April 1 to Sept. 11, or 163 days. 1923—Sept. 1 to Sept. 19, or 18 days. 1925-26—Sept. 1 to Feb. 18, or 170 days.

It can thus be seen that during the last four years the miners have been on strike nearly one solid year. The loss in earnings to workmen and dividends to mine owners, the distress to consumers, and the lack to transportation companies, are but the outstanding evils of this period. The settlement under which work is now resumed came at a time when all sides were practically worn out. If this is but a truce the labor problem in the coal fields is still far from having been settled. And now that work is once more being pursued it is a good time for Congress to set about a thoroughgoing investigation of the problem and make an effort to protect the industry and the public against a recurrence of such strikes.

William Green, president of the American Federation of Labor, has pointed out that labor unions have passed the militant stage, and must enter the stage of business co-operation if they are to retain the place to which they are entitled. This is rather sound advice and might with profit be adopted as the fundamental basis for agreement between owners and miners in the anthracite fields. If a lasting peace can be obtained upon such a basis as this the public would undoubtedly have no dispute with the outcome. Congress should keep that thought to the foremost.

One story is good until another is told. The aphorism is an ancient one. Evidences of its truth are presented al-

Two Sides to a Story

most daily. One was offered recently in the shape of an editorial in a Boston newspaper pointing out the great difficulty in prohibition enforcement caused by

the vogue of the automobile. "Enforcement of the prohibition law," says our neighbor very justly, "is complicated very greatly by the automobile with its facilities for rapid flight."

Quite so. But the necessity for prohibition, vigorously enforced, is greatly increased by the general use of the automobile. In Massachusetts the office of Registrar Goodwin reports that there were last year 29,970 automobile accidents, of which the authorities estimate fully one-half were due to drunken drivers. Fiftysix fatal accidents resulted from that cause. National statistics are not available, but it does not need any tabulation of figures to make it clear to the average intellect that, with more than 20,000,000 cars now in service, the necessity for sober driving is a matter of concern to everyone. In accidents due to driving while under the influence of liquor, the suffering is most likely to be incurred by the innocent.

Just at present there is a tendency to exaggerate the difficulties of enforcing prohibition, while quietly ignoring the ever-increasing need for it due to more complicated social conditions. The more thoroughly the people are convinced that protection to life and to prosperity requires the rigid suppression of the liquor traffic, the more thorough that suppression will be.

Obscured by the dust raised by news dispatches, speculations and discussions in several

Work Done Means More Than Loud Words

capitals, particularly in Washington, relative to Germany's temporarily deferred entry into the League of Nations, recent events in that restless corner of Europe, the Balkans, have attracted scarcely any

notice. Yet these incidents are of prime importance, as disclosing quiet but effective work that has been going forward under the League's guidance to prevent hostilities that might easily start a conflagration involving all Europe.

Two Associated Press dispatches of about 100 words each have told the story. They show that Greece and Bulgaria, which only a short time ago were apparently on the verge of armed conflict over their border differences, have reached practical agreement on all the points at issue between them.

The first of these news items was sent from Sofia on March 1. It said that direct negotiations were going on between "Sofia and Athens with the object of disarming the frontier between Greece and Bulgaria to prevent a repetition of the recent border dispute. This incident was finally closed today," the dispatch continued, "when Greece paid over to the Sofia Government 15,000,000 leva, the second and last installment of the 30,000,000 (\$224,000) indemnity ordered paid by the Council of the League of Nations."

That in itself was a great victory for the orderly and wise processes of the League. Its importance will be readily perceived by anyone who reviews the critical events immediately preceding it—the gathering of Greek soldiery on the Bulgarian frontier, seizure of disputed territory, shelling of Bulgarian towns with destruction of much property and some lives, declarations from Athens that Greece never would retire from the occupied lands and that any indemnity in the affair must be paid by Bulgaria. Thus the fuse was lighted and was sputtering toward a Balkan explosion. Thenthere came an order from the League of Nations to stop. Its bugle call of peace was obeyed by Greece. Finally the payment for damages was recorded on March 1.

The other significant cable item was sent from Sofia on March 23. It said:

Greece and Bulgaria have reached a complete agree Greece and Bulgaria have reached a complete agree-ment on all outstanding questions between the two coun-tries. Only two matters remain to be settled, namely, linking their respective railways and the granting of a sea outlet in the Ægean to Bulgaria. A Foreign Office statement says that the accord was reached by Foreign Minister Buroff of Bulgaria and M. Rufos, the Greek Foreign Minister, in a series of conferences in Geneva, where both had attended the meeting of the League of Nations

This remarkable achievement was accomplished at the very moment when the spec-tacular and foolish wrangling over admission of Germany was going on not many yards away. To understand aright whither the world is really moving by means of the League's harmonizing processes, it is better to give closer attention to the actual work it is doing than to momentary disputes arising from old distrusts, which are surely, though slowly, being removed by the onward march of inexorable

That is indeed a high and worthy mission, somewhat tardily it may be, ascribed to motion

The Mission

of the

"Movies"

pictures by Mr. Will H. Hays, president of the Motion Picture Producers and Distributors of America. Heretofore regarded as an attractive and more or less inexpensive vehicle for conveying amusement to

the masses, it is now declared to offer a potent and simple means for bringing about better understandings among men and nations.

Critics who have found much to be condemned in the motion pictures have had no difficulty in convincing the unprejudiced that harmful influences have been exerted by the exhibition of improper films. It should be as easy for those who see the larger opportunities offered to advance equally convincing arguments in support of their contention. And in this connection it should not be forgotten that an actual advance in this direction has already been made. Films of inestimable historic value have been produced and shown everywhere. Moral lessons have been taught by the same process. Literature has been ennobled, it may be said, by the illumination of its pages and the recreation, by actors upon the screen, of its outstanding characters.

But the casual student may reasonably incline to the impression that with this great opportunity present the tendency of scenario writers and producers has been, especially in recent years, to seek the glorification of war as an institution. The influences of the recent great struggle in which humanity engaged are still too vivid, perhaps, to be entirely ignored. But despite this fact it may be that the purveyors have overestimated the public demand for pictures of this character. Because of the fact that no setting for a picture can depict the actual horrors of war, the scenes presented, no matter how faithfully they may reproduce in detail the actual scenes portrayed, the lesson which should be taught is lost.

What is to be the method of the new approach? Mr. Hays has not told us with satisfying particularity. It will not add greatly to the value of the films as an educator to be able to show the contrasting fashions of the different peoples of the world. Men and women are not judged, or even known, in the true sense of the word, by the pattern of their coats and hats. There must be devised, it would seem, some method of spreading this better acquaintance which is so greatly to be desired. The pictures must be of the actual, rather than of the imaginary activities of the people portrayed. The actor upon the stage seldom represents anything outside the character he seeks to portray.

Thus it may be said that American films, which now are sent around the world, do not, in any true measure, represent America. They are not educational, or helpful in the undertaking outlined, unless they do represent the country of their origin or aid in carrying to the peoples of other lands a better understanding of the aims and desires of American people. Mr. Hays is said to have declared that the motion picture has gone beyond the field of entertainment and education, and has become a definite factor in the promotion of peace. It need not abandon either of those fields, it would seem. Surely by educational processes it can accomplish most as a promoter of peace, and if it can, in the meantime, amuse and please, the way will be made all the easier.

Editorial Notes

While all the world knows something about Dr. Albert Einstein, relatively few know anything whatever about his wife, though they may breathe a sigh of relief when they learn, on her own authority, that she knows "nothing about the new theory," and that her husband has not attempted to explain it to her. In an interview published shortly after the Royal Astronomical Society has presented its gold medal to her famous husband, she has given the world some intimate pictures of her renowned husband's home life. He is, it seems, very fond of music, and has taught himself to play the violin, while he can improvise upon his piano. Then when he finds himself with nothing more important to do, he takes great pleasure in sailing trips, and will "lie back in the boat, hands clasped behind his head, looking through half-closed eyes at the sky." Even a genius, one may conclude, therefore, is not so very different in many respects from many another person, while any woman who is, as Frau Einstein describes herself, "not talented in any direction except in that of being a wife and mother," need not worry supremely about anything in particular.

In his toast when laying a commemorative stone in the new building which is being erected in Bouverie Street, and Tudor Street, London, in order to enlarge the offices of the Daily News, Lord Oxford and Asquith showed that he had glimpsed more than merely casually a real vision of the mission of the press. He was more and more convinced that Great Britain could have no greater national asset than a pure, clear-minded, responsibly conducted, and absolutely independent press, he declared, adding that he looked with suspicion and with mistrust upon all proposals, however well intended, whether by legislative or administrative action, to fetter its freedom, to censor its activities or—what he considered more important than either—to disparage or in any way impair its sense of responsibility.

The Diary of a Political Pilgrim

FROM A LONDON CORRESPONDENT

The week of the Geneva débâcle was a week of sensa- | into the open so that mankind can see what is really going tions, so far as international affairs were concerned. First, there were the incidents at Geneva; then we had Mr. Houghton's gloomy reflections on the state of Europe, and finally came the raising by Mr. Borah of claims against the allies for interference with American trade during the blockade before the United States entered the war.

What does it all imply? Is the League doomed? Is Europe hopeless? Is France the villain of the piece, as Mr. Houghton suggests? Ought we to prepare for another war, as the pessimists allege? Whatever the answers to these questions may be, it is certainly necessary that thinking people should take stock of the position in the light of what has happened.

There is not very much to add to what is already well known about the final stages of the failure to admit Germany to the League. It was due to several causes. The most important was the attempt by France, Italy, and the lesser European allies to add Poland as a permanent member of the Council, to serve as a makeweight to Germany.

This attempt encountered the inflexible opposition of Germany itself, of Sweden, and of British public opinion. Unfortunately, Sir Austen Chamberlain was so far identified with the French point of view that he was never able to extricate himself from a half-impotent position, so that, though the way was finally opened for the entry of Germany, save for the veto of Brazil, many people felt that, all the recrimination and confusion, a delay of six months was the best way out.

Secondary causes of the débâcle were the attempt of Spain, Brazil and other not first-class powers to force their way into permanent seats in order not to lose their temporary seats, and the attempt of the "Locarno" powers to decide things by themselves in secret negotiations instead of employing the normal machinery of the League, open conference and debate.

Granted failure at Geneva, however, is the situation so hopeless as might appear at first sight and as pictured by Mr. Houghton? Personally, I think not. On the contrary, I think that we may be on the verge of a much more real advance than that which Locarno seemed to register. if the nations can rise to the height of their opportunity.

The great trouble of the past few years has been that so much of the propaganda for peace, for the League of Nations, for Locarno, for disarmament, has really been idealistic make-believe. People have convinced themselves that the letter was the same thing as the spirit, and have acclaimed the signing of treaties and the passing of resolutions as the same thing as moral reform. Now at last the illusions have been roughly brushed aside. We see what the ambitions and feeling of the nations really are and what has to be done if real peace is to be won.

In this, therefore, Mr. Houghton has been certainly right. Geneva and Mr. Houghton between them have dispelled the illusions which have been deceiving people about the possibility of early disarmament and the abolition of all risk of war through protocols, leagues, world courts, or any other such mechanical means. We see exactly where we are. Nations are still self-centered, jealous, ambi tious, afraid, reluctant to co-operate with one another, as they have been for centuries. Where Mr. Houghton is wrong is in not recognizing that really immense progress has been made, considering that only seven and a half years have elapsed since Europe was torn by the most terrible war in history.

In some ways, indeed, the events of the fortnight preceding the debacle represented the most useful piece of

work that the League has yet done. It brought the secret motives and moves of diplomacy out into the daylight. Contrast the situation just before 1914. On the surface the waters of international diplomacy were then unruffled. Until July 23 people were saying that war was "impossible" in these civilized days. Yet within a week half the world was at one another's throats, with the plain men and women everywhere asking what it was all about.

The primary task of the League is to force diplomacy | would do.

on and not stay apathetic and beguiled by illusion until it is too late. That task it has abundantly achieved, and it has done so because its machinery not only enabled the facts to be brought out, but because it made it possible for the small nations to stand up for their ideals as against the strong.

The real question, the question which overshadows every other, is not who is to blame for the recent events at Geneva, but what is going to be done in September? If the nations, having now been confronted with the passions and appetites which still estrange them, and which if unchecked must eventuate in another war, can find the means of overcoming them and reaching real co-operation by that time, something will have been done which is worth all the high-sounding documents and treaties which have been signed since the armistice.

There are two practical problems to be settled. The first is the admission of Germany to the League. That, in point of fact, was really settled at the recent meeting. There are to be no permanent additions to the Council to be a makeweight against Germany. Poland is to come on as a temporary member, which will be a good thing, but only in place of some existing member like Czechoslovakia.

The second is more difficult. What is to be the future organization of the League? How is the line to be drawn between the great powers who have permanent seats and the lesser powers who have not? How is a system of rotation to be devised which will give to all the lesser powers their turn of office and yet keep the geographical distribution balanced? Will it be necessary to introduce regional arrangements so as to prevent, for instance, a South American or Asiatic power from exercising a veto in a purely European matter, and vice versa?

These questions may not seem to be particularly difficult in themselves. They are difficult only because they are the subject matter of all those jealousies and ambi-tions and fear-ridden intrigues which lie at the root of international discord and are the ultimate cause of war. If the way can be found through them, and a system devised which is just and equal, and with which all the members will agree to work, there is good hope that the League will be able to deal with the still greater European issues which will be presented to it for solution later on. If not, the alternative is not very bright. The League will languish and the world will be thrown back upon the old diplomacy which, times without number, has plunged the nations in war.

This last, indeed, is the fundamental point. It is easy to criticize the League. Those have suffered most, perhaps, who have expected too much from it. But what is the alternative? Unless the nations can agree to meet one another and to discuss their common problems in some organized way, what possible chance is there of their being able to prevent another of those wars which for centuries have regularly overtaken a divided world just because it is divided? The next six months will certainly be fraught with issues of vital importance which require the constructive thinking of every lover of mankind.

The main feeling that has been aroused here by the news that Mr. Borah is contemplating the presentation of a bill against the allies for damages to American traders by the blockade of Germany before the entry of the United States into the war, is one of frank incredulity. People have generally believed that all outstanding claims were settled by the debt settlement, and they do not see how, in common decency, it is now possible to present claims in respect of a blockade which the United States itself afterward joined in and made much more stiff.

I hope that the whole matter will be dropped. The amount of money involved is negligible, compared with the immense harm to Anglo-American good feeling for many years, which the mere presentation of the claim

The World's Great Capitals: The Week in Moscow

week," which always precedes the Russian Lent, the Muscovites all had their fill of "bleenies," or Russian pancakes, with the invariable Russian accompaniment of "smetana," or sour cream. Bleeny dinners are a feature at this time The bill of fare for a bleeny dinner includes, besides the pancakes and sour cream, an additional side dish in the shape of caviare, together with soup and various Russian smoked fish delicacies.

A painting of the Roman Emperor Vespasian by Rubens has been discovered in an obscure village in Novgorod Province, and has now been placed in the Novgorod Museum. The painting belongs to a series of works depicting various Roman Emperors executed by Rubens between the years 1614 and 1619. The other paintings in the series are in well-known European galleries, such as the Sans Souci Gallery in Berlin, the Gallery of Prince Lichtenstein in Vienna, etc.

4 4 4 The ban which was previously imposed on private teaching of children in kindergartens has been removed, and large numbers of private kindergartens are springing up. Many of these kindergartens were already leading a surreptitious existence, and came openly into the light of day after the removal of the legal objections to their existence.

4 4 4 Felix Dzerzhinsky, president of the Supreme Economic Council, which manages the Soviet state industries, is more than usually insistent on the need for economy at the present time, because of the credit stringency and the need of the industries for all available capital resources. His latest drive in the interests of economy is aimed at superfluous advertising. Pointing out that more than \$10,000,000 was spent on advertising during the last year, and that the rates are four or five times as high as those which prevail in foreign countries, he urged the managers of the state industries to be sparing in their granting of advertising contracts, and to omit advertising altogether in the numerous cases when the demand for a commodity outruns the supply, thereby making any special effort to reach the public quite superfluous.

On the occasion of the forty-fifth anniversary of the assassination of Tsar Alexander II, on March 1, 1881, the Soviet Government awarded pensions of 225 rubles a month to eight surviving participants in the conspiracy which led up to the assassination. It is interesting to note that five of these eight veteran revolutionists are women. One of them is the well-known Vera Figner, who spent many years in the famous Schlusselburg prison, worked abroad with Kropotkin and other revolutionary leaders, and returned to Russia after the 1917 revolution. She has recently been occupied with writing her memoirs.

4 4 4 The significant changes which have been made in the entrance requirements for the Russian universities and higher technical schools, changes which involve stricter examination of the intellectual qualifications of the incoming students and eliminate much of the old system under which Communist or trade union affiliation was one of the most important factors in deciding a candidate's chances for admission, are part of a general move to improve the quality of the new Russian industrial specialists. It is recognized that so far the showing of students who have passed from the universities into various branches of technical work has not always been satisfactory. Students are being urged to concentrate on their courses and to cut down to a minimum the outside activities, in the shape of political and social work, which have hitherto interfered to some extent with their regular studies. At the same The significant changes which have been made in the

Church Membership and Total Abstinence To the Editor of THE CHRISTIAN SCIENCE MONITOR:

The question of total abstinence in the United States has become a matter of controversy and argument through the Volstead Act, around which the sense of lawlessness and selfishness in human nature seems to seethe perpetu-To those who are law-abiding and who care deeply for the welfare of others, especially the weak and unfortunate of the human family, its present enforcement and future stability must loom up as of paramount importance.

In my forty years of service among the poor of the cities and in the great penal institutions of the country, I have naturally come to feel very deeply on this subject, and it seems to me that to aid the enforcement of the law and to emphasize the really vital importance of this great forward step that our Nation has taken, every church and religious organization must take a very definite and drastic stand. Surely it has become a matter of religious importance.

The Muhammadan may not touch strong drink because it is forbidden by his religious faith. He is brought up from childhood with the knowledge that it would mean desecration to ideals which he holds sacred. Why cannot the Christian and Hebrew religions of this country exact total abstinence as a condition of their membership

Now it may not be possible to enforce this with those who are adult members of religious societies, but can we not—all of us—begin with the children? Catholic Church, for instance, is known to have a tremendous hold upon its children. Could not every child, on being prepared for its first communion, sign the pledge and have it instilled into its mind that the breaking of that pledge breaks not only its country's laws but also a tenet of its religious faith?

The same rule could be made in the Episcopal church. for those who were being prepared for confirmation, and in the Baptist church for those who had asked for baptism. In all church Sunday schools and in the synagogues chil-dren could take the pledge and be instructed in its solemn importance as they are being taught the commandments and other requirements of their faith.

Everyone must realize that it is the future generation that will most surely benefit by total abstinence. I suppose some would argue that children would not understand the importance of the pledge and would be likely to break it in after life. But is it not true that the impressions, convictions and ideals embraced in childhood are among the most lasting of our lives?

I am convinced that in this, as in all great reform movements, it is to the children we must look for the hope of the future. Surely it is the duty of the church to make this great fundamental one of the foundation stones of the children's faith. Can we not start throughout the churches a mighty temperance movement among the older people?

I speak from the personal experiences of our own movement, for from its inception, long before prohibition, it has been a basic rule of the Volunteers of America that every individual member of our organization must be a total abstainer.

I hope that the day will come when every church and every faith will make it a condition of membership!
